Sound Box Store specialises in offering the highest technological advancements in acoustic meeting rooms, zoom rooms and phone booths.

Soundbox offers advanced acoustic meeting rooms, Zoom rooms, and phone booths designed with sustainability, safety, and impeccable design in mind.

Our frames showcase a blend of engineering and aesthetics, distinguishing us from bulkier alternatives in the market.

Our philosophy

Partnering with professionals from different industry sectors to deliver consistent, reliable, and competitive acoustic control, insulation, and damping solutions. We are in the business of inspiring and opening up a new era of infinite possibilities within the industry.

Our mission

As Europe's acoustic solution leader, we're dedicated to providing comfortable, sustainable soundproof pod and booth environments that foster productivity.

10 years in the making

With a state-of-the-art facility in Europe, we've spent 10 years perfecting our sound booth solutions. From mature markets to emerging ones, our innovative Zoom rooms and phone booths enhance productivity and acoustic control.

Low carbon

Soundbox Store are the first company to use recycled carbon plastic materials. For each Soundbox booth: carbon footprint $\leq 0.071\text{kg Co}_2\text{e}$, energy consumption $\leq 0.4\text{MJ}$, air acidification $\leq 0.0001\text{kg SO}_2\text{e}$, water eutrophication $\leq 0.00002\text{ PO}_4$. Care for our global home with technology.

Embracing Sustainability

Our Green Pledge

Our dedication to sustainability is at the heart of everything we do. We understand the importance of responsible manufacturing, and it's our mission to contribute positively to the environment.

Sustainable Materials

Our products are a testament to our eco-conscious approach. Every aspect of our manufacturing process is designed with sustainability in mind:

Aluminium Frame and Corner Panels

Our products feature an aluminium frame and corner panels that are 100% recyclable, making them ideal for creating durable structures without contributing to waste.

Recyclable Glass

The glass we use is 100% recyclable, ensuring that even transparent elements in our products are aligned with our eco-friendly ethos.

Recycled Plastic Polymer

Our plastic polymer components are manufactured from recycled plastics and are 100% recyclable, reducing the need for virgin materials and minimizing our carbon footprint.

Eco-Conscious Packaging

We believe in responsible packaging solutions. Our cardboard packaging is recyclable, and our plastic packaging is also recyclable, achieving a remarkable 95% recyclability rate.

PET Board from Recycled Plastic Bottles

We proudly utilise PET boards made from recycled plastic bottles, transforming waste into a valuable resource while maintaining the highest standards of quality.

Recyclable Electrical Elements

Our products incorporate electrical elements that are designed for optimal efficiency and are 90% recyclable, ensuring that even the technology we use aligns with our sustainability goals.

Nominal Materials

Even the smaller components matter. Seals, foams, and other nominal materials are crafted to be 60% recyclable, reflecting our commitment to reducing waste across the board.

We Bring You Consultation Services

We begin by igniting inspiration. We offer guidance and bring results. Occasionally, you may simply require acoustic relief. However, we are also at your service for broader needs, such as fostering a collaborative team, promoting focused productivity, or establishing an unforgettable brand presence. From initial strategizing to the final implementation, experience the potential of transforming exceptional concepts into reality.

We commence by instilling inspiration

We're available to personally consult each office new layout idea. This is how we ensure top-notch quality, considerate environmental impact, and scrutinise operational procedures. We extend the same level of diligence to the delivery process, employing intelligent logistics to transport goods to our warehouse and hubs. Additionally, we utilise both in-house and regional logistics within the UK, ensuring a seamless and efficient process.

Design & space planning

Craft a workspace that amplifies your brand's productivity. Enhance teamwork and confidentiality, liberate additional room, and reintegrate remote staff into the office environment. And if you've yet to witness a client area transformed into a bar, or a conference room featuring a putting green, we have a couple more delightful surprises up our sleeves.

Project management

When you relocate or revamp your office, get in touch with us. Our team will oversee all facets of planning and orchestrating your project with thoroughness, dedication – and adhering to stringent timelines. We go above and beyond the essentials, including the integration of acoustic booths, and are proficient in executing your design blueprint.

Bringing creative, productive work environments back again!

Plug & play installation

Our revolutionary product design allows you to move the panels anywhere you wish. Carefree!

Time saving

Thoughtful design ensures simple installation in a few hours or less. Either installed by our team of fully insured professionals or guided by clear instructions and online videos.

Cost-effective

At a fraction of the cost of traditional construction, our pre-fab solutions create additional space for focused work and collaboration without constant noise, interruption, and distraction.

No renovation needed

The breakthrough in product design and process means you pay less for the same results.

Hearing protection

We specialise in architectural acoustic environments, construction, and industrial noise control. Acoustic environmental safety technology and solutions.

Flexible

Unlike traditional constructions, our purpose-built Pods are designed to adapt to your workspace and can easily be positioned in various places throughout your office, or in an entirely new location.

Folio Phone Booth

Acoustic phone pod

The Folio Phone Booth provides an excellent solution for those looking for a quiet and comfortable workspace. With superior sound insulation, ergonomic design, and easy assembly, our acoustic phone booths are the perfect addition to any busy office environment. Don't let noise and distractions get in the way of your productivity and creativity.

Product model

- Lights, Power, Action! Within the Folio Task Booth sits a mini sofa, cushioned for comfort but primarily for support, complimented by an organically curved task desk
- Equipped with a directional task lighting bar and singular UL/CE 220-240v power socket (UK or EU) with 2 * USB and 1 * USB-C will power the devices required
- The PIR sensor will help save on power, automatically turning off after 5mins of not being occupied

Furniture

The Folio comes with mini sofa, task desk, and task light designed ergonomically for working on laptop, phone booth, zoom / conference calls.

Dimensions

Internal Size: H196 W100 D80cm
External Size: H210 W110 D90cm
Net Weight: 224kg (Pod+Furniture)

Folio Stand Up

Acoustic phone booth

Busy environments can be chaotic, interruptive and frustrating, with less focus resulting in poor productivity and creativity. Within our Folio Phone Booth, we offer retreat, comfort and well-being within an ergonomic cocoon of tranquillity. The occupant focuses on the task at hand, delivering the required results with minimum interruption. Our phone booths are built to the highest standards and finished to perfection, delivered flat-packed and can be assembled in an hour.

Product model

- Lights, Power, Action! Within the Folio Task Booth sits counter height stool, complimented by an plywood layer organically curved task desk
- Equipped with a directional task lighting bar and singular UL/CE 220-240v power socket (UK or EU) with 2 * USB and 1 * USB-C will power the devices required
