

THE BETTER LETTERS IN 15 CHALLENGE

WEEK 4 | DAY 4 | CONNECTIONS

CELEBRATE YOUR JOURNEY

If you need some more time to finish drafting in pencil, go ahead and finish that up today!

Once you are done, you can **begin going over all the pencil lines with your brush pen.** (If you need to do some drills or want to practice the words first before you start, feel free to do so on some scratch paper!) The pencil acts as a guideline but if there are any adjustments you'd like to make when you are lettering in ink, you can make them during this time.

Take your time and enjoy this process which is the result of all of your hard work throughout these past 4 weeks :)

I recommend tracing over the entire phrase letter by letter. Don't worry about any touch ups yet. We will go back and make any adjustments or fix any blemishes in the very last step. (The reason I like doing it this way instead of correcting as you go is so that you can really analyze the entire piece as a whole, keeping things more consistent.

The goal today is to finish lettering over all the pencil lines with your brush pen.
