

Dear Healthcare Provider:

Your patient has expressed an interest in “Uresta” Bladder Support. It is an RX rated Medical device and therefore will need a prescription. The Uresta bladder support stops leaks by supporting the urethra, rather than absorbing them.

- Safe for use all day, or just when you need it
- Cleans with soap & water
- Easy to insert & remove, like using a tampon
- Comfortable, you won't even know its there!
- No need to remove when going to the bathroom
- Reusable
- FDA Cleared
- Environmentally friendly
- More cost-effective solution compared to alternatives

To provide your patients with Uresta, send e-prescriptions or fax forms to HealthWarehouse.com as Uresta isn't yet available in local pharmacies! More information available [here](#).

If you would like any additional information or FREE "Starter Kit", please call our toll-free number or visit our product website at www.minervahealthinc.com/uresta. These " Starter Kit" units are a great way to confirm the product fits your patient and that she is comfortable using it. You can prescribe with confidence!

We thank you for your time and assistance with your patients' request!

Sincerely,

Minerva Health Solutions
