

## DCT transmission prepped by HPR

We stock used DCT transmissions available for our customers.

The transmissions are handpicked by us before they go through an extensive check to ensure you get a good transmission.

**All our used transmissions come with a 90 day startup warranty for peace of mind.**

### Prepwork included:

- Visible inspection of transmission internals
- Remove oil pan, inspect suction filter
- Supply and install HP filter with billet cover
- Install Oil pan, mechatronics cover, wiring plug
- Remove/install modified output shaft and rear cover.
- Install GTR adapter (for GTR customers)
- Acid clean of transmission
- Crating and packaging included

Price 39 990 - 41 990 Nok

### Optional external prep work package for DCT and 8HP transmissions

(RB engine adaptation only)

- Remove outside webbing for tunnel clearance
- Make clearance for starter motor
- Make clearance for front propshaft
- Prep rear flange for adapter installation
- Weld thread inserts to converter

Price 4200 Nok

Please note that we do not ship the transmissions with billet oil pans due to the risk of damage/scratches. We recommend installing the oil pan after the final installation has been completed.
