OUR STORY

From the roots of our business to the brand we are today

Known today as the cordless specialists, EGO is part of an international manufacturing business that was established in 1993. Over the past two decades, we have enjoyed exceptional growth and today our products are sold in over 30,000 outlets in 65 countries worldwide.

As one of the world's biggest tool manufacturers, we employ more than 5,500 people and produce over 10 million units per year.

Designing and developing tools that really do deliver

In order to design, develop and deliver the innovation our customers demand, we employ a team of over 300 highly qualified technicians. Working together at our dedicated R&D centre, they in partnership with our international teams, design innovative, durable and reliable tools that deliver superior performance.

To ensure consistent quality in all we produce, our team of internationally and professionally recognised testing engineers implement international safety authorisations and help to define global industry standards.

Innovative ways we're reducing our impact on the environment

Innovation runs right through every aspect of our organisation. Not only in the products we develop but also in the ways we operate and the places we work. Take our dedicated R&D facility, in 2004 we installed a 7,000m² Green Roof system to this unique building. Energy-wise, this has saved the equivalent of 5 litres of petrol per m² each year.

Similarly, the roof of our Green Power Industrial Park features a 2 megawatt photovoltaic power station. Known as 'The Blue Roof', the power this will generate year on year will save the equivalent of 755 tonnes of coal; eliminating

Sulphur Dioxide emissions of 50 tonnes and Carbon Dioxide Emissions of 1677 tonnes annually.

Moving inside, the Green Power Industrial Park utilises the latest in ground-source heating, air-conditioning and water-storage technologies. The ground-source heating system alone saves a massive 1 million kWh of electricity annually, the equivalent of 378 tonnes of coal; eliminating Sulphur Dioxide emissions of around 25 tonnes and Carbon Dioxide Emissions of 839 tonnes each year.

PETROL POWER HAS MET ITS MATCH

The innovative EGO
Power+ system from the
cordless specialists

EGO Power+ has the power to match petrol, without the noise, fuss or fumes. EGO's industry-leading Arc Lithium 56v battery technology delivers a new level of performance, giving you the dependable power you need to keep working hard until the job's done.

A cordless system like this offers the ultimate in convenience. There's no trips to the petrol station for fuel and no more having to store highly flammable liquids. Instead you get the freedom to work exhaust and emission free. For real flexibility, the same Arc Lithium battery fits every tool in the EGO Power+ range. Just click in the battery and you're ready to go.

All EGO Power+ products come with a domestic user 5 year warranty on tools and 3 year warranty on batteries. The warranty for commercial users is 12 months. Further details can be found on our website.

EGO®
POWER+ SYSTEM

EGO POWER+ VS PETROL

See just how well our tools compare

Powered by our industry-leading 56v Arc Lithium battery, the EGO Power+ system delivers petrol matching power but without any of the downsides. It's simpler, cleaner and quieter and also more comfortable to use due to less vibration. Plus with lower running and maintenance costs, switching to EGO Power+ will lead to long term savings.

ZERO EMISSIONS DURING USE

Our Arc Lithium battery gives petrol matching power but without the fuss and fumes

LESS NOISE AND LESS VIBRATION

EGO Power+ tools often operate at lower noise and vibration levels than traditional petrol powered tools

EASY SET UP AND STARTING

No filling up with fuel; with EGO Power+ just click in the battery and get to work

LOWER RUNNING COSTS

The cost of running an EGO Power+ product for a month is the same as using a two stroke product for a day*

FOLD FLAT, EASY STORE DESIGN

Unlike large heavy petrol mowers, the EGO Power+ mower's fold flat design makes storage and cleaning simple

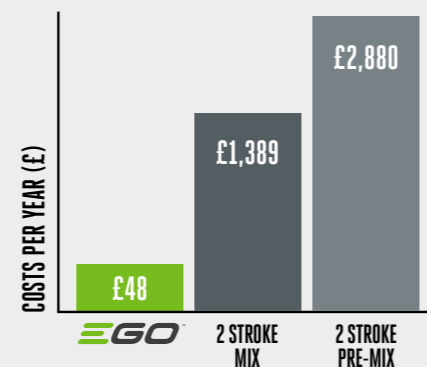

NO PETROL TO STORE

Instead, EGO's Rapid Charger refuels batteries in as little as 25 minutes – less than the run time you get from a full charge

Petrol-beating benefits...

USING 2 STROKE MIX		USING EGO POWER+

LITRES PER DAY	3	Vs 2 STROKE PRE MIX	£236.00
COST PER DAY	£12.00		
COST PER MONTH	£240.00		

*Cost of charging according to kW pricing in UK. ** Cost of petrol mix based on published UK pricing. Data calculated for daily use of the 4.0Ah battery.

*Based on average daily use of 3 litres of post mix fuel per day

REDUCING YOUR RISK FROM HAND ARM VIBRATION SYNDROME

Those who regularly use hand held power tools may be at risk from Hand-Arm Vibration (HAV) Syndrome. Also known as 'Vibration White Finger' the condition causes painful and disabling disorders of the blood vessels, nerves and joints.

Those affected may struggle with fine motor tasks and exposure to cold can cause extreme pain in the fingers. However HAV syndrome is fully preventable. One way it can be avoided is choosing tools that vibrate less than traditional petrol powered products – tools just like those in the EGO Power+ range.

Designed so you can work comfortably all day long

The EGO Power+ mower, blower, hedge trimmer, line trimmer and chain saw have all been designed to operate with low levels of vibration, often under the 2.5m/s² exposure action value limit (EAV) and well below the exposure limit value (ELV).

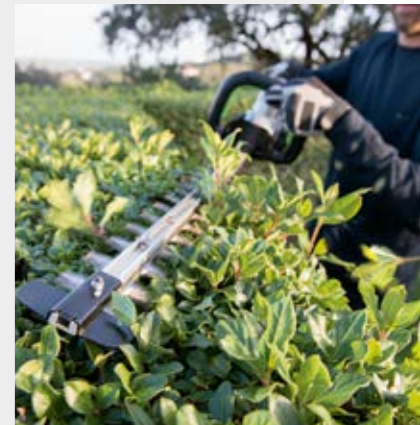

This allows you to comfortably work with them all day long, without any risk to your health. So choose EGO Power+ and protect yourself every working day.

Exposure to noise is no longer a problem

One other way the EGO Power+ range protects users is by operating at a noise level lower than their petrol alternatives. Traditional petrol tools can be noisy and long-term, daily exposure to this may lead to hearing loss and also tinnitus – a permanent ringing sensation in the ears.

However, all EGO Power+ tools operate at lower sound pressure levels which will reduce the potential of damage, especially over long-term use.

Operating noisy equipment can also lead to an increase in work-related stress. Many factors are known to contribute to this condition and rarely there is a single cause. However because EGO Power+ tools operate at lower sound levels, the working environment is quieter and less stressful for the user.

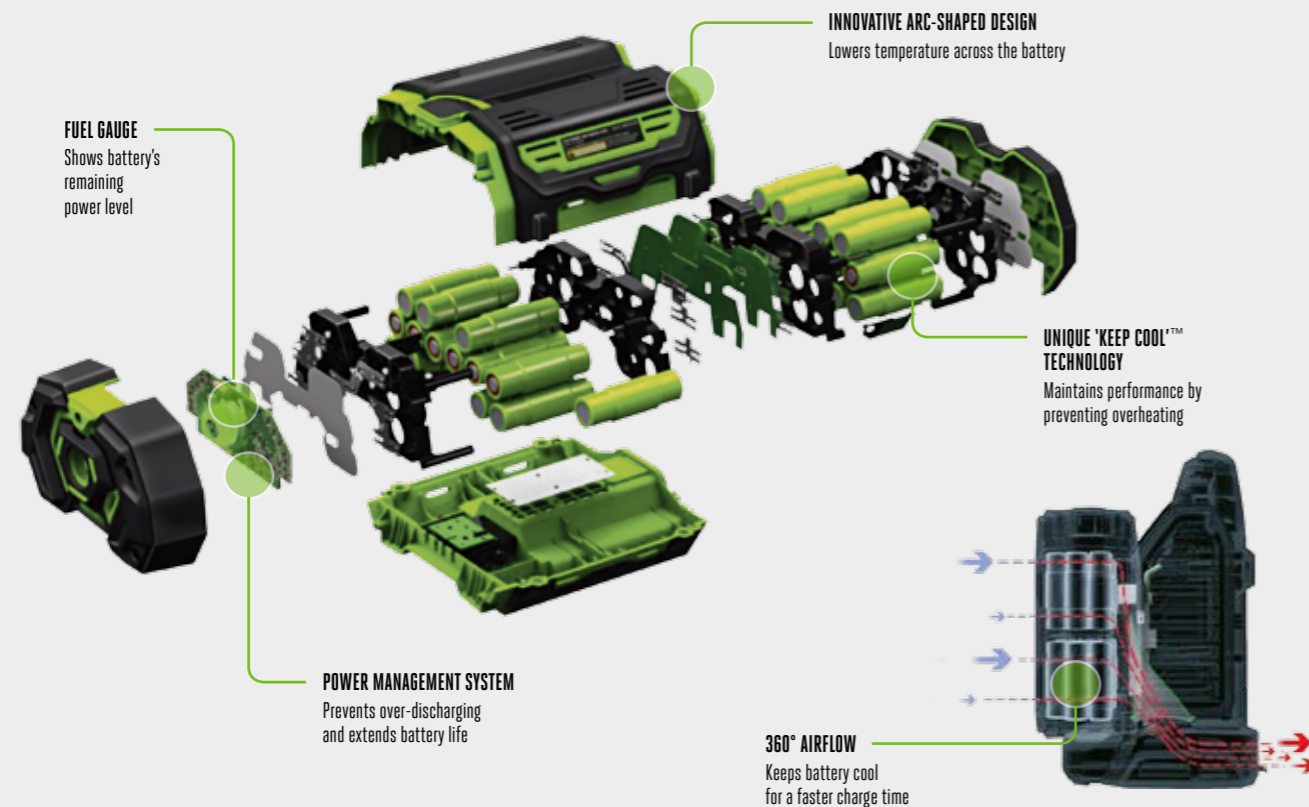

DELIVERING THE INDUSTRY'S HIGHEST ENERGY CAPACITY

The industry's most advanced battery technology delivered by our unique, patented ARC Lithium design

There is no other battery like EGO's Power+ Arc Lithium 56v battery. Unlike conventional brick shaped batteries that can overheat and lose power, our unique Arc design dissipates heat more effectively. Combined with our advanced power management system and innovative, proprietary, 'Keep Cool'™ cell technology, this delivers long-lasting power and unmatched performance. In fact, it delivers the industry's highest energy capacity in a portable hand held battery.

When it's time to recharge, the Rapid Charger's innovative fan system cools the battery - so it starts charging earlier and finishes sooner. As a result, the time it takes to refill the battery is often less than the run time you get from a full charge. So with 2 batteries on the go, you'll never run out of power and can keep going all day long. Plus with a range of battery sizes available from 2.0Ah to 7.5Ah, you can choose the power you need to tackle any task.

THE BATTERY SYSTEM THAT WORKS AS HARD AS YOU

Team up your EGO Power+ tools with our Lithium-ion backpack

Balancing exceptional power with user comfort, EGO's Lithium-ion battery backpack is a wearable, ergonomic design that fits every hand held tool in the EGO Power+ range and is designed to keep you working all day long.

To ensure optimum performance, efficiency and longevity, this intelligent high-capacity battery system incorporates individual cell monitoring and balancing during both the discharge and recharge cycles.

Keeping you updated as you work, the backlit LCD display shows battery percentage, cell diagnostics and the individual run time of whatever tool is currently connected.

Designed to perform, built to last

Delivering the run times you demand, this 1300 watt hour battery backpack will give you a full days work* from just a single charge.

The high-quality cells with both high power rating and high energy density can handle up to 1,000 charge cycles. Plus, with fast recharging you can go from empty to full in just 4 hours.

CONVENIENT HANDLE
For easy carrying

FULLY ADJUSTABLE SHOULDER AND WAIST HARNESS
With quick release catch

NON-SLIP, ERGONOMIC HARNESS
For even weight distribution

ROBUST WEATHERPROOF MATERIAL
For long life and comfort

BACKLIT LCD BATTERY DISPLAY
Shows charge percentage and battery diagnostics

	BP1300
BATTERY CAPACITY (Wh/Ah)	1300/23.2
CHARGE TIME	240 mins
WEIGHT (without harness)	7.6kg

SO MUCH POWER, SO MANY BENEFITS...

FITS ALL HAND HELD TOOLS - in the EGO Power+ range

HIGH EFFICIENCY BATTERY LIFE - lasting until the end of a full day's work

DETACHABLE BATTERY AND HARNESS - harness can be tailored to individual user for improved comfort and hygiene

WORK HEALTHIER - without strains, musculoskeletal problems or fumes

MASSIVE SAVINGS - based on 1,000 charge cycles versus daily fuel costs of £5 the battery backpack will pay for itself in less than 200 charges. (Cost per charge of backpack is 30p). Total return on investment on the lifetime of the battery is £4,000

*Full days work based on an 8 hour working day.

VARIABLE SPEED
SELF-PROPEL MOTOR
KEEPS YOU IN CONTROL AS YOU CUT

PETROL-MATCHING POWER AND PACKED WITH FEATURES

Significantly quieter than a petrol mower and with far lower service costs and zero emissions during use, the EGO Power+ mower range offers a variety of large cutting capacities. This lets you comfortably tackle any lawn in less passes, while the large capacity bag needs emptying less often.

The variable speed self-propel motor keeps you in control as you cut. Plus on a single charge our battery gives you up to 45 minutes run time.* Automatic Variable Speed on selected models, delivers optimal cutting speed to maximise battery run time whilst maintaining grass cutting performance.

The 3-in-1 functionality lets you bag, mulch or side discharge clippings while the LED headlights let you work further into the day. And when you're done, the easy-fold design makes cleaning and storage simple.

PUSH BUTTON START
Power up in seconds

VARIABLE SPEED SELF-PROPEL MOTOR
Cut at a speed that suits you

QUICK RELEASE TELESCOPIC HANDLE

HIGH TORQUE, HIGH-EFFICIENCY MAGNETIC MOTOR
For operation in all conditions

LARGE CAPACITY BAG
Spill free design for easy removal

LED HEADLIGHTS
Work further into the day

FOLDS IN SECONDS
For convenient storage and easy cleaning

LARGE DIAMETER WHEELS
For easy motion

6-POSITION SPRING LOADED DECK HEIGHT ADJUSTMENT
Set heights from 28-94mm

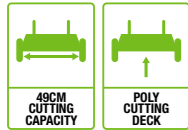

*Run time can vary depending on model and battery as well as condition of grass and user operating technique.

Please note: some features are not available on all models

LM2001E
49cm EGO POWER+ MOWER

SUPPLIED WITH A
4.0Ah BATTERY &
RAPID CHARGER

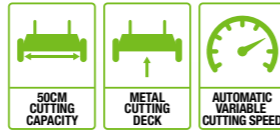

Featuring 2 adjustable handle heights, a 49cm cutting capacity and 60L collection bag

LM2011E
50cm EGO POWER+ MOWER

**CONSTANT
SPEED CONTROL**
ENSURES CONSISTENT TRIMMING

EFFICIENT, EFFECTIVE AND EASY TO HANDLE

With a large cutting swath to cut any task down to size, the EGO Power+ line trimmers feature a quick-adjust handle for optimum balance and control. The soft-start function and constant-speed control ensure consistent trimming and on a single charge, the Arc Lithium battery gives you all the power you need to tackle the toughest conditions.

Other features include cutting speed selection, easy line replacement and twin line trimming for faster cutting and lower vibration, while the free-rotating bump cap lets you rest the cutting head on the ground without being worn away.

QUICK ADJUST HANDLE
For balanced, comfortable operation

SPEED SELECTOR WITH VARIABLE SPEED TRIGGER
Select the ideal speed for every job

LARGE CUTTING SWATH
For faster, more efficient trimming

FREE-ROTATING BUMP FEED CAP
Won't wear when cutting head rests on the ground

SINGLE PIECE ALUMINIUM SHAFT
Quality built to last

EASY LINE REPLACEMENT
Replace the line quickly and easily

Please note: some features are not available on all models

51cm blade length, 33mm blade gap with double-sided knife-edge cutting action

HT6500E
65cm EGO POWER+ HEDGE TRIMMER

65cm blade length, 33mm blade gap with double-sided knife-edge cutting action

**BALANCED,
CONTROLLED,
POWERFUL
CUTTING**

A well-balanced design for more comfortable operation, EGO Power+ hedge trimmers feature double-sided knife-edge, laser cut diamond ground blades for precise clean cuts. The two-speed selector lets you choose the right speed for every task and the large cutting capacity means you can get to work on larger hedges with thicker branches and stems.

Blade-tip protection stops damage from fences and walls. For safer working, the safety blade guard helps prevent injuries while the electric brake stops the blades when the trigger is released.

Powered by the petrol-matching Arc Lithium 56v battery, a single charge delivers such impressive run time that you'll be amazed at how much hedge you can cut.

**TOOL-FREE
CHAIN TENSIONING
AND DURABLE BAR AND CHAIN**

SAFE, SUPERIOR PERFORMANCE, CUT AFTER CUT

The EGO Power+ chain saw is built tough to tackle even the hardest jobs. Trunks, logs, branches, nothing gets in its way.

The tool-free chain tensioning makes set up and adjustment simple. Check the lubrication level through the oil inspection window and you're ready to go.

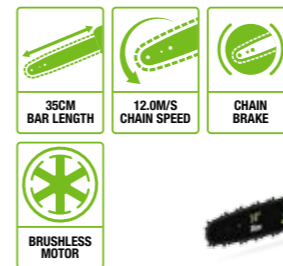

It really cuts it when it comes to safety too. The chain kickback and electric brake protect you while you work. And the auto-lubrication system keeps the chain spinning freely at all times.

Plus with EGO's Arc Lithium 56v battery delivering such an impressive run time and incredible power on a single charge, it'll keep you working cut after cut after cut.

CS1400E 35cm EGO POWER+ CHAIN SAW

The CS1400E chain saw has a 35cm bar length and 12.0m/s chain speed

VARIABLE SPEED CONTROL
Switch between 440m³ per hour and 675m³ per hour output

TURBO BOOST MODE
For a 900m³ petrol-blower beating output

TURBINE FAN ENGINEERING
Utilises advanced aeronautics technology

HIGH EFFICIENCY BRUSHLESS MOTOR
Delivers more power and greater run time

LARGE BLOWER TUBE
Greater diameter delivers maximum airflow

Please note: some features are not available on all models

MORE POWERFUL THAN A HAND HELD PETROL BLOWER

Powered by a high efficiency brushless motor, the EGO Power+ blowers feature jet turbine technology and large diameter tube to give maximum airflow.

With a variable speed function designed to keep you in control it also features a Turbo Boost mode capable of putting out almost 900m³ of air per hour. More than most hand held petrol blowers on the market, that's enough power to clear up even the biggest windfall.
