

## Packing Style: 7320

Non-contaminating packing for pumps where high-speed traits of acrylic yarn and abrasive resistant. Aramid extend packing life.

### CONSTRUCTION

Braided from continuous Acrylic blended fiber, and reinforced with durable aramid corners, Style 7320 is impregnated with PTFE and a proprietary inert lubricant.

Style 7320 packing is also a non-staining, non-contaminating packing with excellent abrasion resistance. A durable resilient packing ideally suited for abrasive slurry applications in centrifugal, rotary, and reciprocating pumps, as well as valves. Our proprietary lubricant is used for extremely low friction at start up and during operation.

#### TEMPERATURE

Maximum: 500°F (260°C)

#### PRESSURE

500 psi (34 bar)

#### SHAFT SPEED

2200 fpm (11 m/s)

#### PH RANGE

2-12

Thickness	ft/lb	Thickness	ft/lb
