# Rosette Assembly Instructions

If you don't want to create the rosette,  you can use the optional rosette cutout instead.

1. Cut out rosette strips, and fold each strip accordion style on the dotted lines.

Now you will create 1 long strip:
Apply adhesive (or hot glue) to the end noted on strip 1 and place strip 2 on the top of adhesive. Repeat with 2 & 3 and then 3 & 4.

Apply adhesive to the end noted on strip 4 and join to strip 1 to make the rosette circle.

2. Flatten out the rosette circle and pinch the center together. Then use hot glue to attach the white circle to the back (non printed) side of the rosette circle (this will keep it flat and provide stability).

3. Glue the cream and blue ribbon piece to the white circle on the back of the rosette. Make sure that the printed side is facing the white circle. Then glue the blue  #1 circle to the front in the center of the rosette.

4.  Punch holes in the cream & blue ribbon and the D A D banner pieces where shown. Then string the banner.
