Our 14-32 size range is drafted for a D cup base. This means the size range works best for larger busts. As a general rule, people with a 4" difference between high and full bust are considered a D cup. If you are an A cup (1" inch difference), B cup (2" difference), or C cup (3" difference) you may need to make a Small Bust Adjustment for the best fit. If you are larger than a D cup, you may need to make a Full Bust Adjustment.
