Walnut	1,300
Oak	1,200
Maple	1,200

The Bas Chair is a minimal design and a contemporary take on a Shaker ladder-back chair. This chair features a padded seat and an angled back that is modern and comfortable for a dining chair. The three rungs are also compound-angled inwards towards a centerline keeping pressure off your spine and making for a luxurious long sit despite its contemporary, hard-lined aesthetic. The Bas chair is built with sustainable sourced solid American hardwoods and traditional joinery. Pictured in natural walnut, black deer-tanned leather upholstery, and a hand-rubbed oil & wax finish.
