

Brower Credenza

The Brower Credenza is a simple, solid wood sideboard with clean lines and ample storage. The most eye catching feature for the Brower family must be the graphic and shapely half-round legs. The solid wood push-to-open doors are made of custom milled, extra thick veneers and heavy lumber-banding over a stable core for extreme stability and durability. The Brower Credenza is a minimal design useful in any room in the home. An elegant storage solution made from sustainable lumber and finished with our own special formulation of hand rubbed oil and wax for a superior touch and feel.
