

Brower Shelves

Six solid wood shelves supported by two sets of half-round uprights make up the Brower Shelves. An open storage solution for those looking for a simple, minimal organization system for all the necessities you want to keep in view and close at hand. Thick, solid brass hardware makes for stable, solid connections able to support a heavy library with ease. A contemporary design made using old world, traditional techniques; comfortable in both the modern and traditional home. Finished with our own special recipe of oil and wax and painstakingly hand rubbed for an unsurpassed touch and feel.
