ORDERING INFO 19

HI, **WE'RE JOYYA!**

We make custom apparel and accessories that go beyond fair trade — and go against the grain. We were founded in 2001 in Kolkata, India, with three goals: make stuff people love, be a source of joy where little is found, and spark radical change in our community. Got your attention yet?

OK, so what do we mean by radical change? It's betting on the battlers in life. It's creating economic stability where it usually doesn't stand a chance. And it means being good to our employees, their families, our neighborhoods, and the earth. We're kinda passionate about this, if you can't tell.

We're in the business of bringing more good into the world. Every ethically crafted item we make and each dollar we earn drives our nonprofit — Joyya Collective — and is a step toward positive change. You in?

BUY GOOD.
DO GOOD.

ORGANIC Cotton Tees

CERTIFIED ORGANIC COTTON

Joyya is committed to sourcing raw materials that are good for people and the planet. Pesticides and fertilizers used to grow non-organic crops have had a terrible impact on the earth and those who work it. That's why Joyya sources only certified organic cotton for our products. You can learn more about our supply chain including the certifications our suppliers hold at joyya.com.

RECYCLED POLYESTER

For those customers who prefer a blended fabric, Joyya requests our fabric supplier to use only recycled polyester to prevent creating more plastic waste.

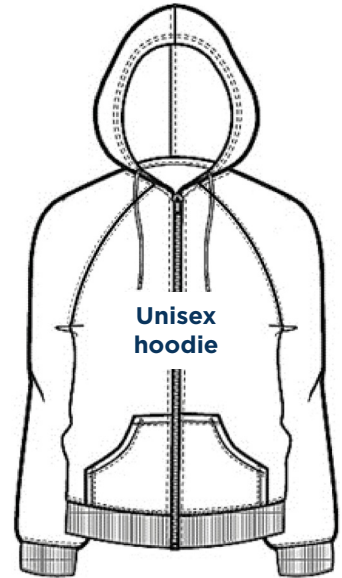

BI-BLEND Fabric

The elasticity of polyester combined with the strength of cotton makes a fabric that can resist wear and tear in a way regular cotton cannot. Our **60% organic cotton/40% recycled polyester bi-blend** results in a velvety-soft fabric that holds its color and shape wash after wash.

Planet Earth loves our products. So will you.
