

H-FORMULA

Food supplement for horses

CIFA registration number: 820756

5 kg / 11 lb | 20 kg / 44 lb

DIRECTION FOR USE

Serve this supplement daily at a rate of 40 grams per 100 kg weight of the horse in addition to a balanced ration. For breeders who wish to mix with the grain, for a balanced ration, introduce the supplement to 32.5 % of the mixture.

RECOMMENDED DAILY DOSIS	PER 100 KG OF BODY WEIGHT	FOAL (From 6 to 18 months)	PONY	HORSE
	1/4 dose 1.41 oz (40 gr)	1/4 dose 1.41 oz (40 gr)	1/2 dose 2.82 oz (80 gr)	1 dose 5.64 oz (160 gr)

For a mixture: products to be mixed at a rate of (kg):

325 H-Formula

1 Calcium Sulfate

674 Grains

CAUTION

Follow all instructions.

The presence of vitamins other than vitamins A, D, E, riboflavin (vitamin B2), pyridoxine (vitamin B6) and thiamine (vitamin B1) in food for horses may have no beneficial effect. Results may vary depending on the stable and they cannot be guaranteed by the manufacturer.

RECOMMANDATIONS

- BIOPTEQ Canada recommends to have your hay analyzed and to balance the ration according to the results of the analysis.
- Serve sufficient daily quantities of clean and dust-free hay. Low-quality hay or hay served in poor quantities may cause colic pains and other digestive troubles.
- Provide a daily source of salt (NaCl – Sodium Chloride) as well as fresh and clean water at will.
- Any change of feed must be done gradually, over a minimum period of 10 days.
- The ration should be served in at least two meals, ideally three and even more if necessary.
- Use some scales to weigh H-Formula in order to know exactly how much you give to your horse. Feed it according to its weight, not its volume.
- The feeding recommendations here presented only has an informative value. The individual variances and those due to the stable maintenance or the environment could require changes in the animal needs. Please refer to your equine sales representative from BIOPTEQ Canada if necessary.
- Keep an optimal stable maintenance and a strict and efficient preventive health-care program.

Texture: Pellets

Storage recommendations: To be kept in a fresh and dry area. Immediately recap the recipient after use.

This supplement contains added selenium at the rate of 3.8 mg/kg.
