Custom, Hospitality, Commercial and Residential Lighting

NORWELL

ILEX CUSTOM METALCRAFT

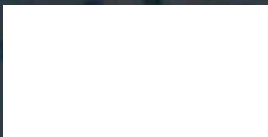

For over 70 years, Norwell has created quality lighting solutions for the residential market. Together with our affiliated companies — Ilex and Custom Metalcraft—we design and engineer our products at our facilities in East Taunton, Massachusetts.

As a means to simplify sourcing and fulfillment, we have created this catalog, which details the product offering of all three divisions. On this side of the book, you will discover Norwell.

Developed for the residential customer, Norwell fixtures are currently available and ready to ship. Each comes in a variety of finishes, and some offer a choice of diffusers, to deliver a uniquely individual look utilizing our standard offerings. We invite you to turn the catalog over to also acquaint yourself with products in our Ilex division, tailored for the custom, commercial, and hospitality markets.

Since we are one company with many capabilities, under one roof, you can be certain all products will be made with the same hands-on expertise and attention to quality.

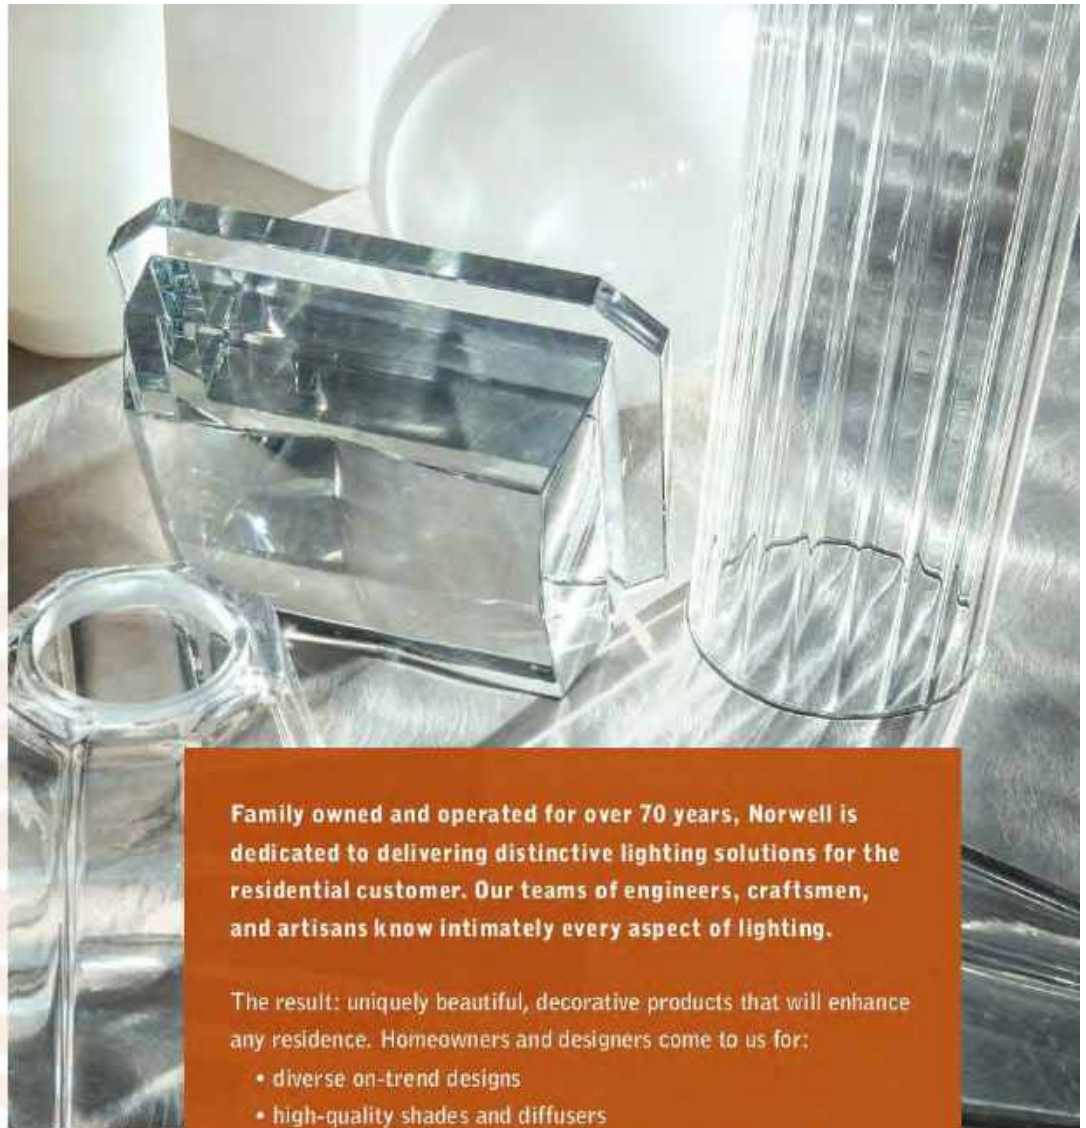

residential

A HERITAGE OF QUALITY

EXCEPTIONAL GLASS DIFFUSERS

All Norwell glass is carefully selected for performance as well as appearance. This is true whether the choice is clear, frosted, matte, faceted or ribbed—classic or on-trend.

Family owned and operated for over 70 years, Norwell is dedicated to delivering distinctive lighting solutions for the residential customer. Our teams of engineers, craftsmen, and artisans know intimately every aspect of lighting.

The result: uniquely beautiful, decorative products that will enhance any residence. Homeowners and designers come to us for:

- diverse on-trend designs
- high-quality shades and diffusers
- versatile styles that can be combined for unique results
- cost-efficient options
- expert on-site engineering
- skilled manufacturing
- prompt product tracking
- responsive customer service

heritage

HIDDEN SET SCREWS

Invisible once installed, set screws ensure a clean, ultra high-end look for backplate mounting.

DESIGNED WITH QUALITY FUNCTIONALITY

glass globe screws to sconce arm, to insure secure fit and . . .

VERSATILE, QUALITY MATERIALS

Superior metals are selected and refined for performance as well as style. Each fixture is inspected by our in-house lighting engineers to meet rigorous quality standards, including UL and ETL specifications.

PERSONAL CUSTOMER SERVICE

Knowledgeable and experienced, Norwell customer-service specialists work at our Taunton headquarters, so they are well situated to provide quick, accurate answers.

Bath

FLEUR

Introduce the artisanal to the bath with this sensuously sculpted fixture. Uplighting softly illuminates the room. One-, two- and three-light styles let you place the amount of light where you need it, for morning tasks and evening relaxation. A staggered matte black chrome backplate emphasizes the beauty of the frosted-white glass shades.

ARTEMIS LED LINEAR

Twin matte acrylic diffusers are joined by an asymmetrical metal bracket to maintain a slim profile that is equally suitable for vertical or horizontal installation. The generous width in 24-inch or 36-inch models affords the bright illumination you want and need in the bath, while the opaque diffuser maintains a glare-free, ambient light from this LED-indicated diffuser.

FLAME

Gradient shading within the diffuser accentuates the curves and wave detail in the backplate. The Flame has chrome blended into the glass, achieving an almost liquid luminosity. This uplight/downlight combination is romantic yet restrained, making it perfect for public or private spaces, like a dining room or bathroom.

This sconce offers astonishing versatility within its many distinctive elements. The gradation within the diffuser is realized with chrome incorporated into the glass. Choose one lamp or opt for two—an uplight and a downlight—or combine the single sconces with the horizontal double lamp in a bath for truly suite results. The scored backplate echoes the detail on both base and diffuser.

BARK LED SCONCE AND FLUSH MOUNT

The textured bark of a tree inspired this mini flush mount or sconce. It is well suited for both walls and ceilings. The small 7-inch width makes this fixture a perfect choice for multiple flush mounts or wall sconces. Integrated LED lighting provides plenty of illumination within a radiant frosted glass diffuser.

Mariner Oval
1101-BR-FR
Page 196

The image features a dark, monochromatic background with a subtle grid of small squares. Overlaid on this are several thick, dark, curved lines that create a sense of depth and movement. In the upper right corner, there is a bright orange, angular shape that contrasts sharply with the dark tones. The word "Outdoor" is written in a clean, white, sans-serif font, positioned in the lower right area of the image.

Outdoor

BACK BAY

A modern twist on a colonial style rectangular lantern the Back Bay is available in two size wall sconces and a post light. Available in Aged Brass and Matte Black. Aged Brass is a "Living Finish" in keeping with the hand-rubbed appearance. Over time the finish will weather to a beautiful patina.

NORWELL ONIONS **GOOD - BETTER - BEST**

Norwell started the long standing tradition of making outdoor Onion products in 1949, the onions were one of the first group of product manufactured by Norwell. The Norwell onions are still popular today. There is a perfect size onion for every home and budget.

American Onion BEST

The American Onion is our finest Onion Lantern made by Norwell Craftsmen in our Massachusetts facility. **The American Onion has replaced our ever-popular Vidalia series.** The American Onion is crafted from solid brass or copper, in a variety of hand-dipped finishes and sizes.

On pages 176-181

Classic Onion BETTER

The original Norwell Onion is crafted of quality materials and features a more robust cage. This offering has the most sizes and finishes to suit any fine home exterior. Classic Onion is available in Black BL, Bronze BR and Gun Metal GM. There are two wall products and two post sizes to select from. **On pages 182-187**

Cottage Onion GOOD

The Cottage features seedy or clear glass in a rounded shape of an Onion, available in two finishes: Black BL and Bronze BR. This popular choice makes an Onion product affordable for all. Cottage Onion series is both eye-catching and ideal for entryways and rustic exteriors.

On pages: 188-191

AMERICAN ONION BEST

The American Onion has replaced our ever-popular Vidalia series. The American Onion, Norwell's finest hand-spun onion, is made in America of quality heavy gauge solid Brass or Copper with a sturdy protective frame that shields the glass. Norwell's quintessential lantern has been in the company's offering since the company began seventy five years ago. The American Onion is offered in two wall sizes and a post lantern with six distinct beautiful hand-dipped, living finishes. All finishes except Matte Black are "Living Finishes" in keeping with the hand-rubbed appearance, overtime the finish will weather to a beautiful patina.

GLOSSARY OF TERMS

ETL / UL: ETL and UL are Nationally Recognized Testing Laboratories (NRTL). NRTLs are empowered by the US government to provide independent safety and quality certifications to a common standard. All catalog products are ETL or UL Listed.

TTO: Top of fixture to center point of junction box.

Damp Location: A damp location is an exterior or interior location that is normally or periodically subject to condensation of moisture in, on or adjacent to the lighting fixture.

Wet Location: A wet location is an interior or exterior location where the luminaire is subject to direct contact with water or other liquids, or where the luminaire is mounted in an unprotected location and directly subjected to the weather.

Warranty ILEX and Norwell product are warranted for 1 year against defect in materials and workmanship. Integral LED components have a 3 year warranty. Incandescent components have a 1 year warranty. To ensure a long lasting finish, a warm dry cloth only to be used for cleaning fixtures.

ILEX CUSTOM METALCRAFT

*"Distinctive lighting
makes the space."
We possess the experience
and skill to take any project
through all stages to
successful completion
and installation.*

Known for its distinctive decorative and architectural lighting solutions, Ilex has served the hospitality, commercial, custom design, and luxury residential markets for two decades.

Our 72,000-square-foot facility in East Taunton, Massachusetts, puts in one place all of our capabilities—design, engineering, craftsmanship, manufacturing, and customer service. This centralization enables us to be a nimble and responsible partner, and to continue our heritage of fine work and genuine accountability.

We understand the need for efficient production that also satisfies the desire for precision, beauty, function, and performance. Toward this end, we are now showing all of our product together in a single catalog. On this side, you'll find the Ilex offering, including a curated selection from Custom Metalcraft, which we acquired in 2016.

Turn the book over and you will find our Norwell residential collections, which can also be specified for commercial or contract projects.

NORWELL

TELL US WHAT YOU NEED WE'LL DELIVER IT.

Ilex has the creative solutions to all your lighting needs. In addition to custom designs, we offer our selection of standard products that can be modified for exceptional, one-of-a-kind effects.

Our New England heritage—a tradition of craftsmanship, ingenuity, skill, and dependability informs all that we do, providing tremendous capabilities for projects of all sizes. From large architectural installations to intimate interior designs, ILEX guarantees:

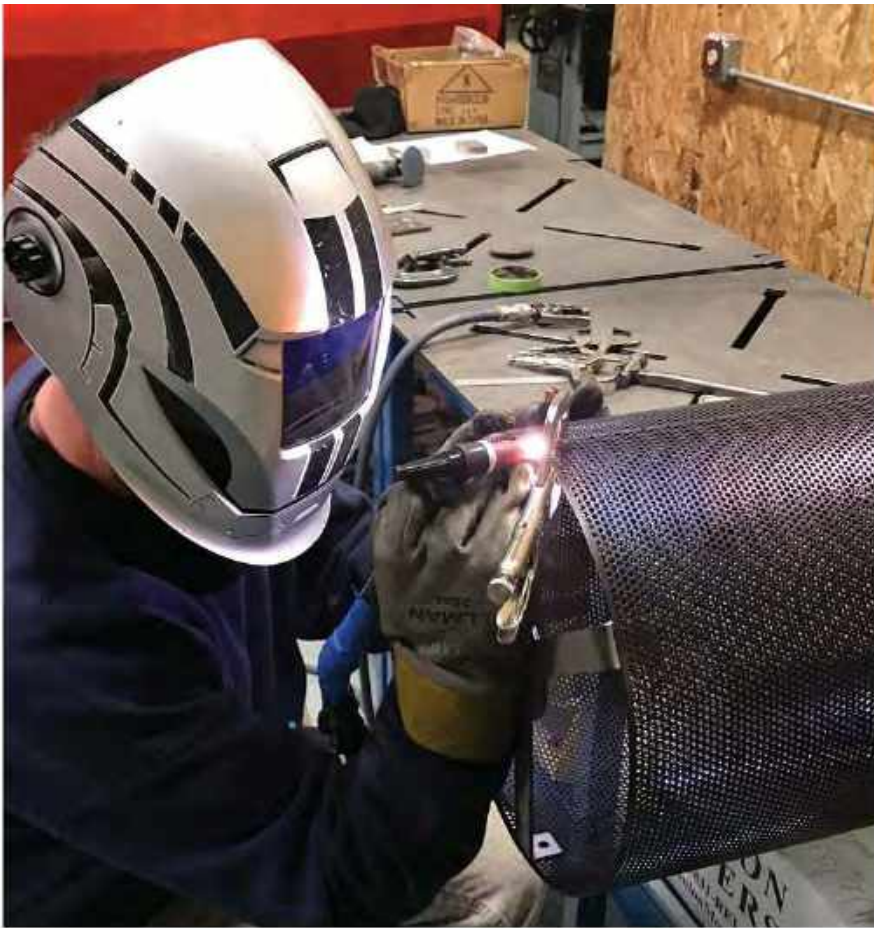

- proven performance
- superior quality
- genuine craftsmanship
- diverse materials and finishes
- high energy efficiency
- competitive pricing
- experienced customer service

IN-HOUSE ENGINEERS

Our lighting experts understand that performance is as important as appearance, so technical specifications and standards are always top of mind.

A SKILLED WORKFORCE

Our engineers and artisans bring decades of experience and expertise to every stage of the process.

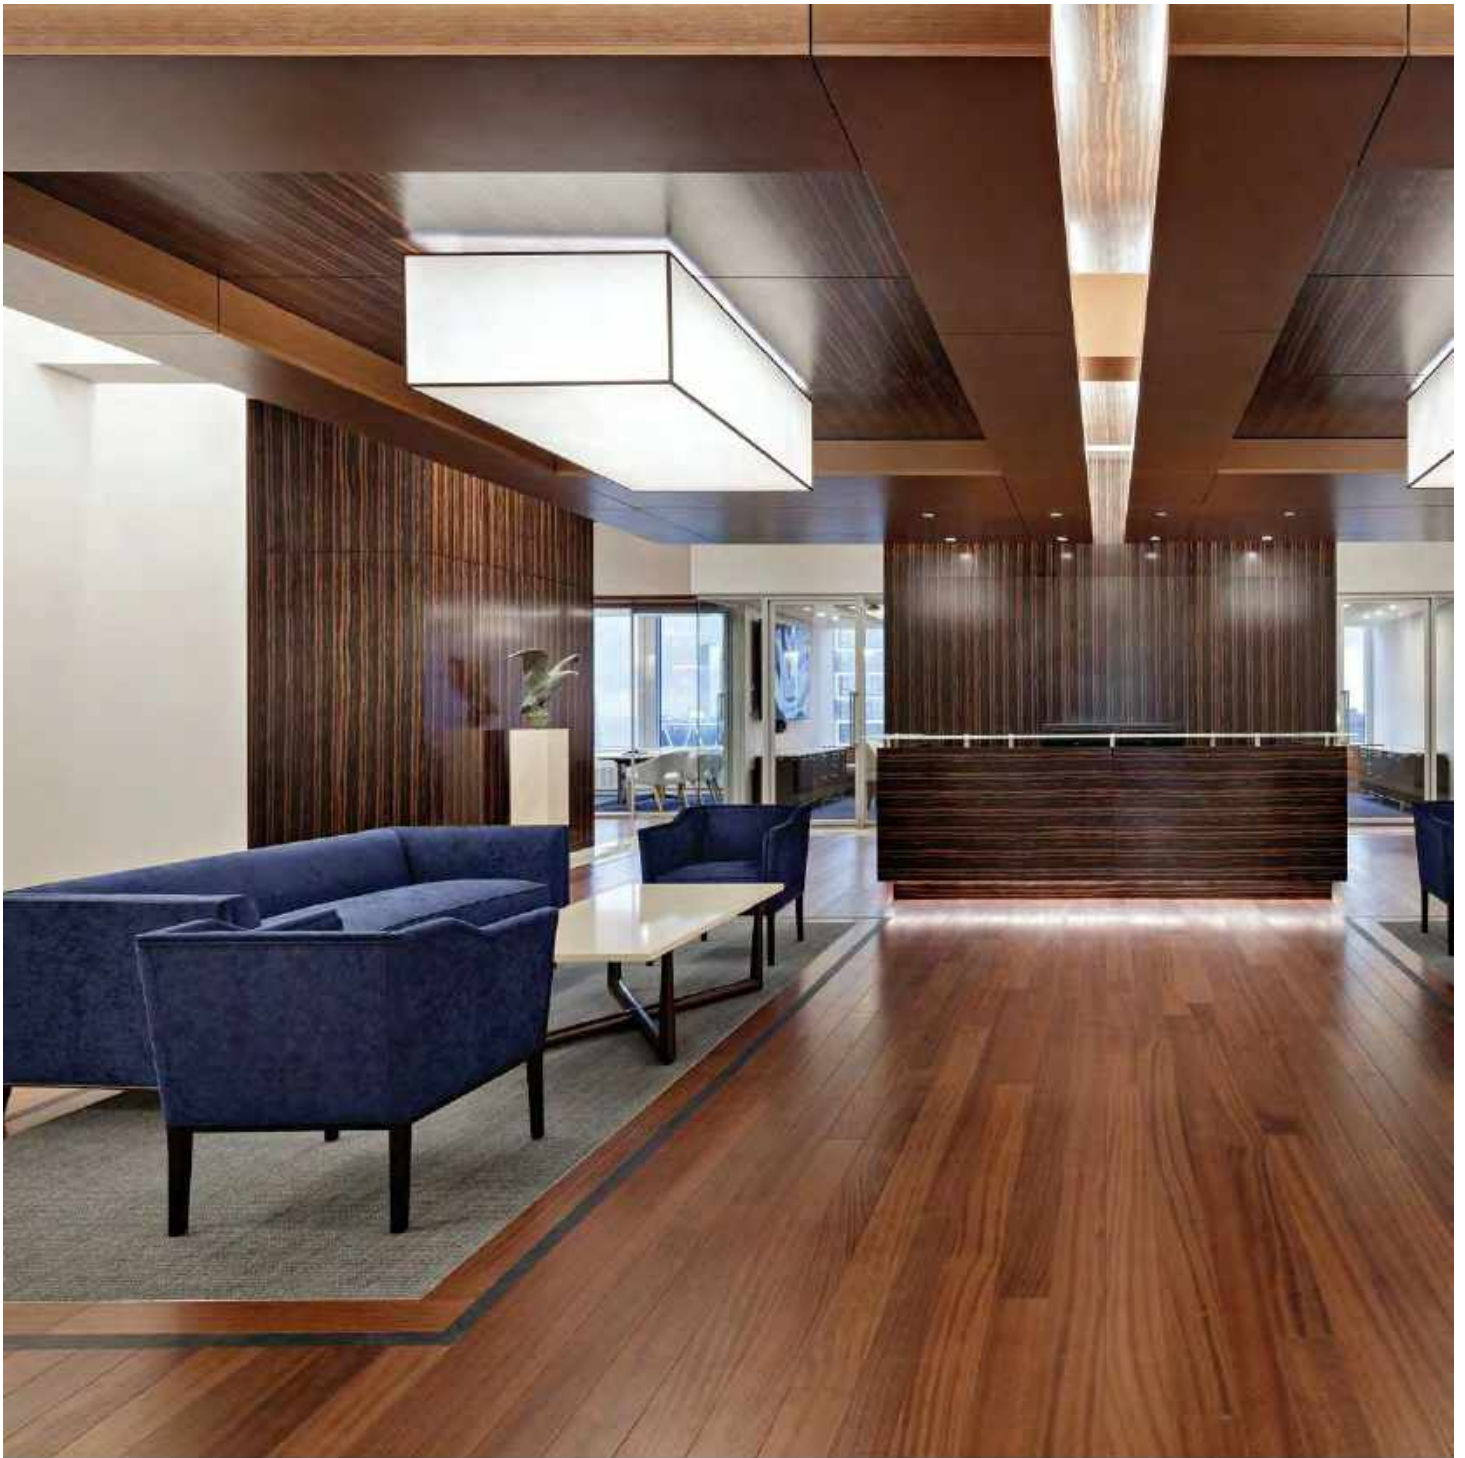

HANDS-ON FINISHING

Our artisans perform quality craftsmanship with modern design tools to achieve the precise effect for each product.

HANDCRAFTED IN AMERICA

ILEX is an American manufacturer committed to maintaining the traditions of American craftsmanship and originality.

CUSTOM Large-scale LED
Project: Private Client Offices, NY, NY
Architect: Spectorgroup, NY, NY
Lighting Design: Bliss-Fasman, NY, NY
Photography: Ben Gancos

SCOPE AND HIGH ENERGY EFFICIENCY

We fabricate custom work for a vast range of installations, from hospitality, and retail spaces to offices, healthcare and education facilities.

CUSTOM
PROJECTS**

CUSTOM: Large scale, 12 Cluster Star Chandeliers
Project: Santa Fe Restaurant, Wilmington Delaware
Design: Mitchell Associates, Delaware
Photography: Don Pearce

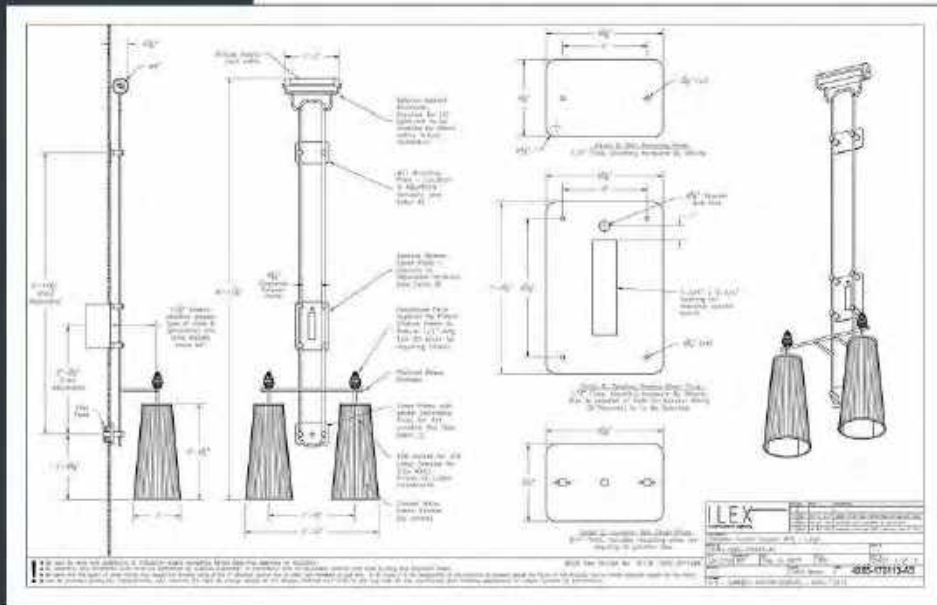

YOU HAVE A VISION SHARE IT WITH US.

Once you decide to work with us, we'll set in motion our resources. We can transform the simplest sketch into a finished CAD drawing. Once drawn, your idea can be manufactured into a real and functioning product.

Simply tell us what you need and we will provide the guidance, hands-on work and trouble-shooting capability to deliver it.

You can depend on us not merely to execute your idea but also to collaborate throughout the entire process.

CUSTOM 9' Sconce

Project: The Campbell, Grand Central Terminal, NY, NY

Lighting: Design: ML Studio, NY, NY

Architect: Ingrao, Architecture and Design, NY, NY

BRING US YOUR PROBLEM WE'LL SOLVE IT.

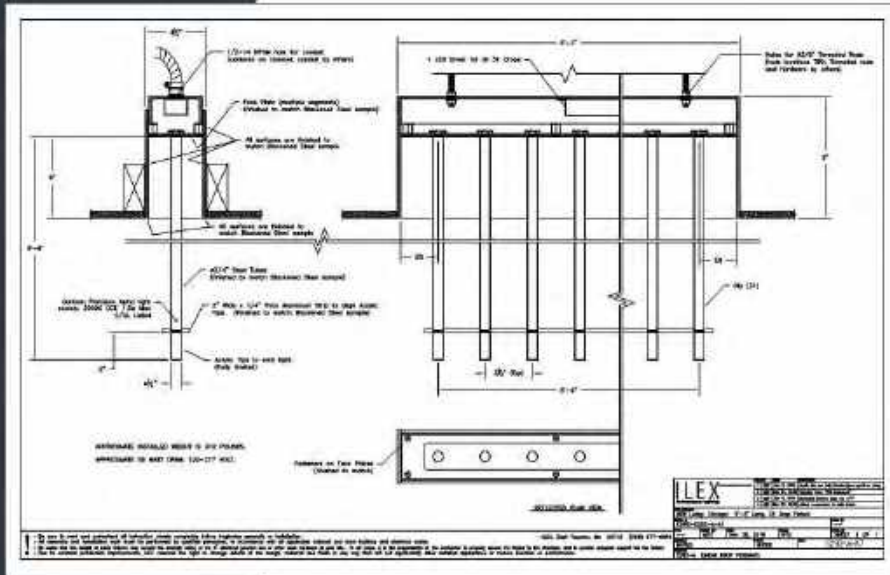

Problem solving is what we do.

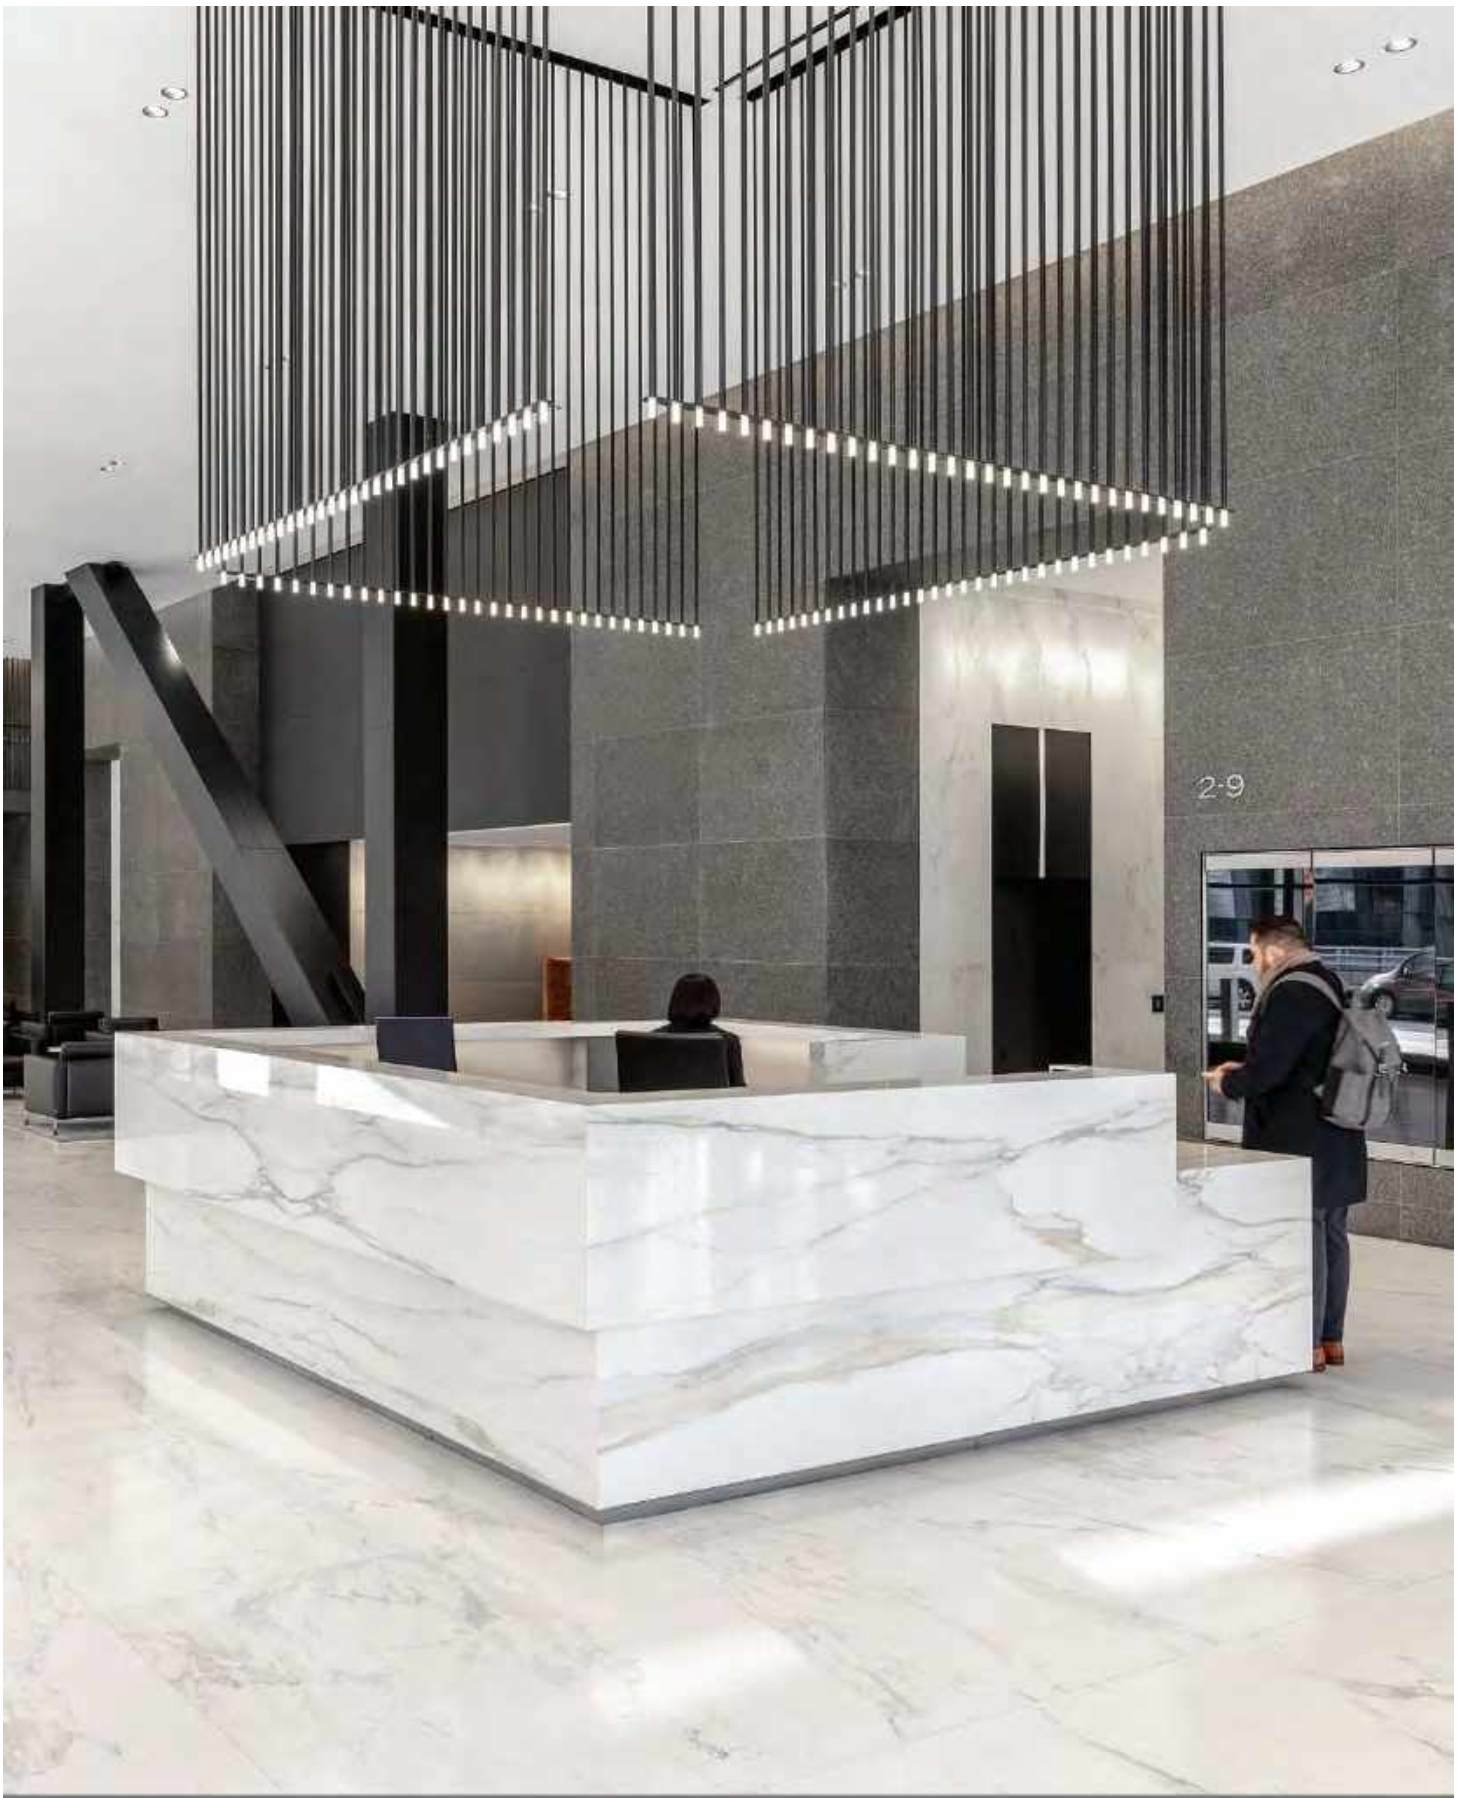

Our role is not simply to make beautiful fixtures but to ensure our products help create the environment you envisioned.

Toward that end, we can assist you in recommending design details that improve the illumination of the fixture, while maintaining the integrity of the design

CUSTOM Large-scale LED Lobby Suspension
 Project: AEW Capital Management Chicago IL
 Lighting Design: TPG Architecture, NY, NY

YOU'RE CUSTOMER FOCUSED SO ARE WE.

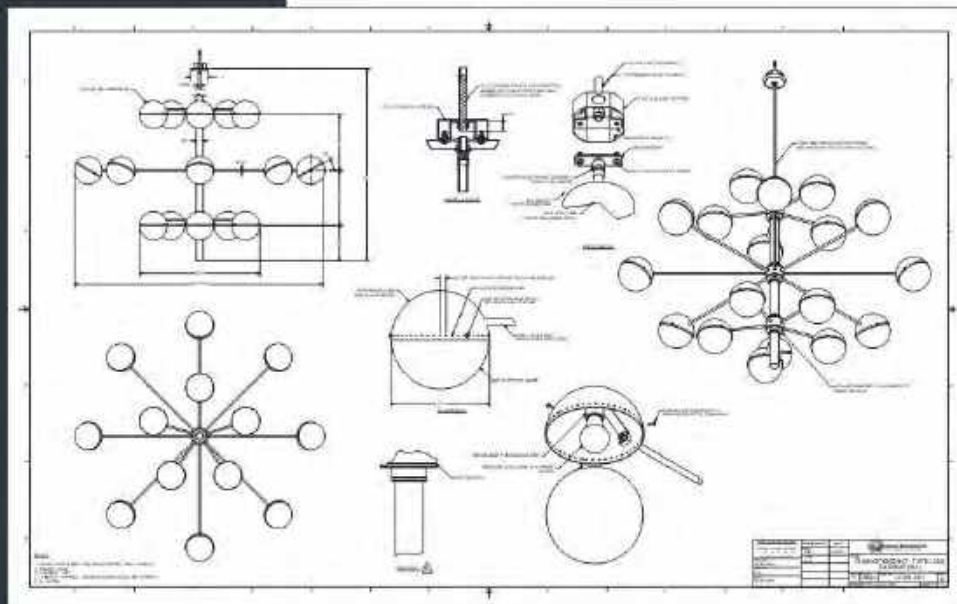

Effective lighting is key to the success of any hospitality interior.

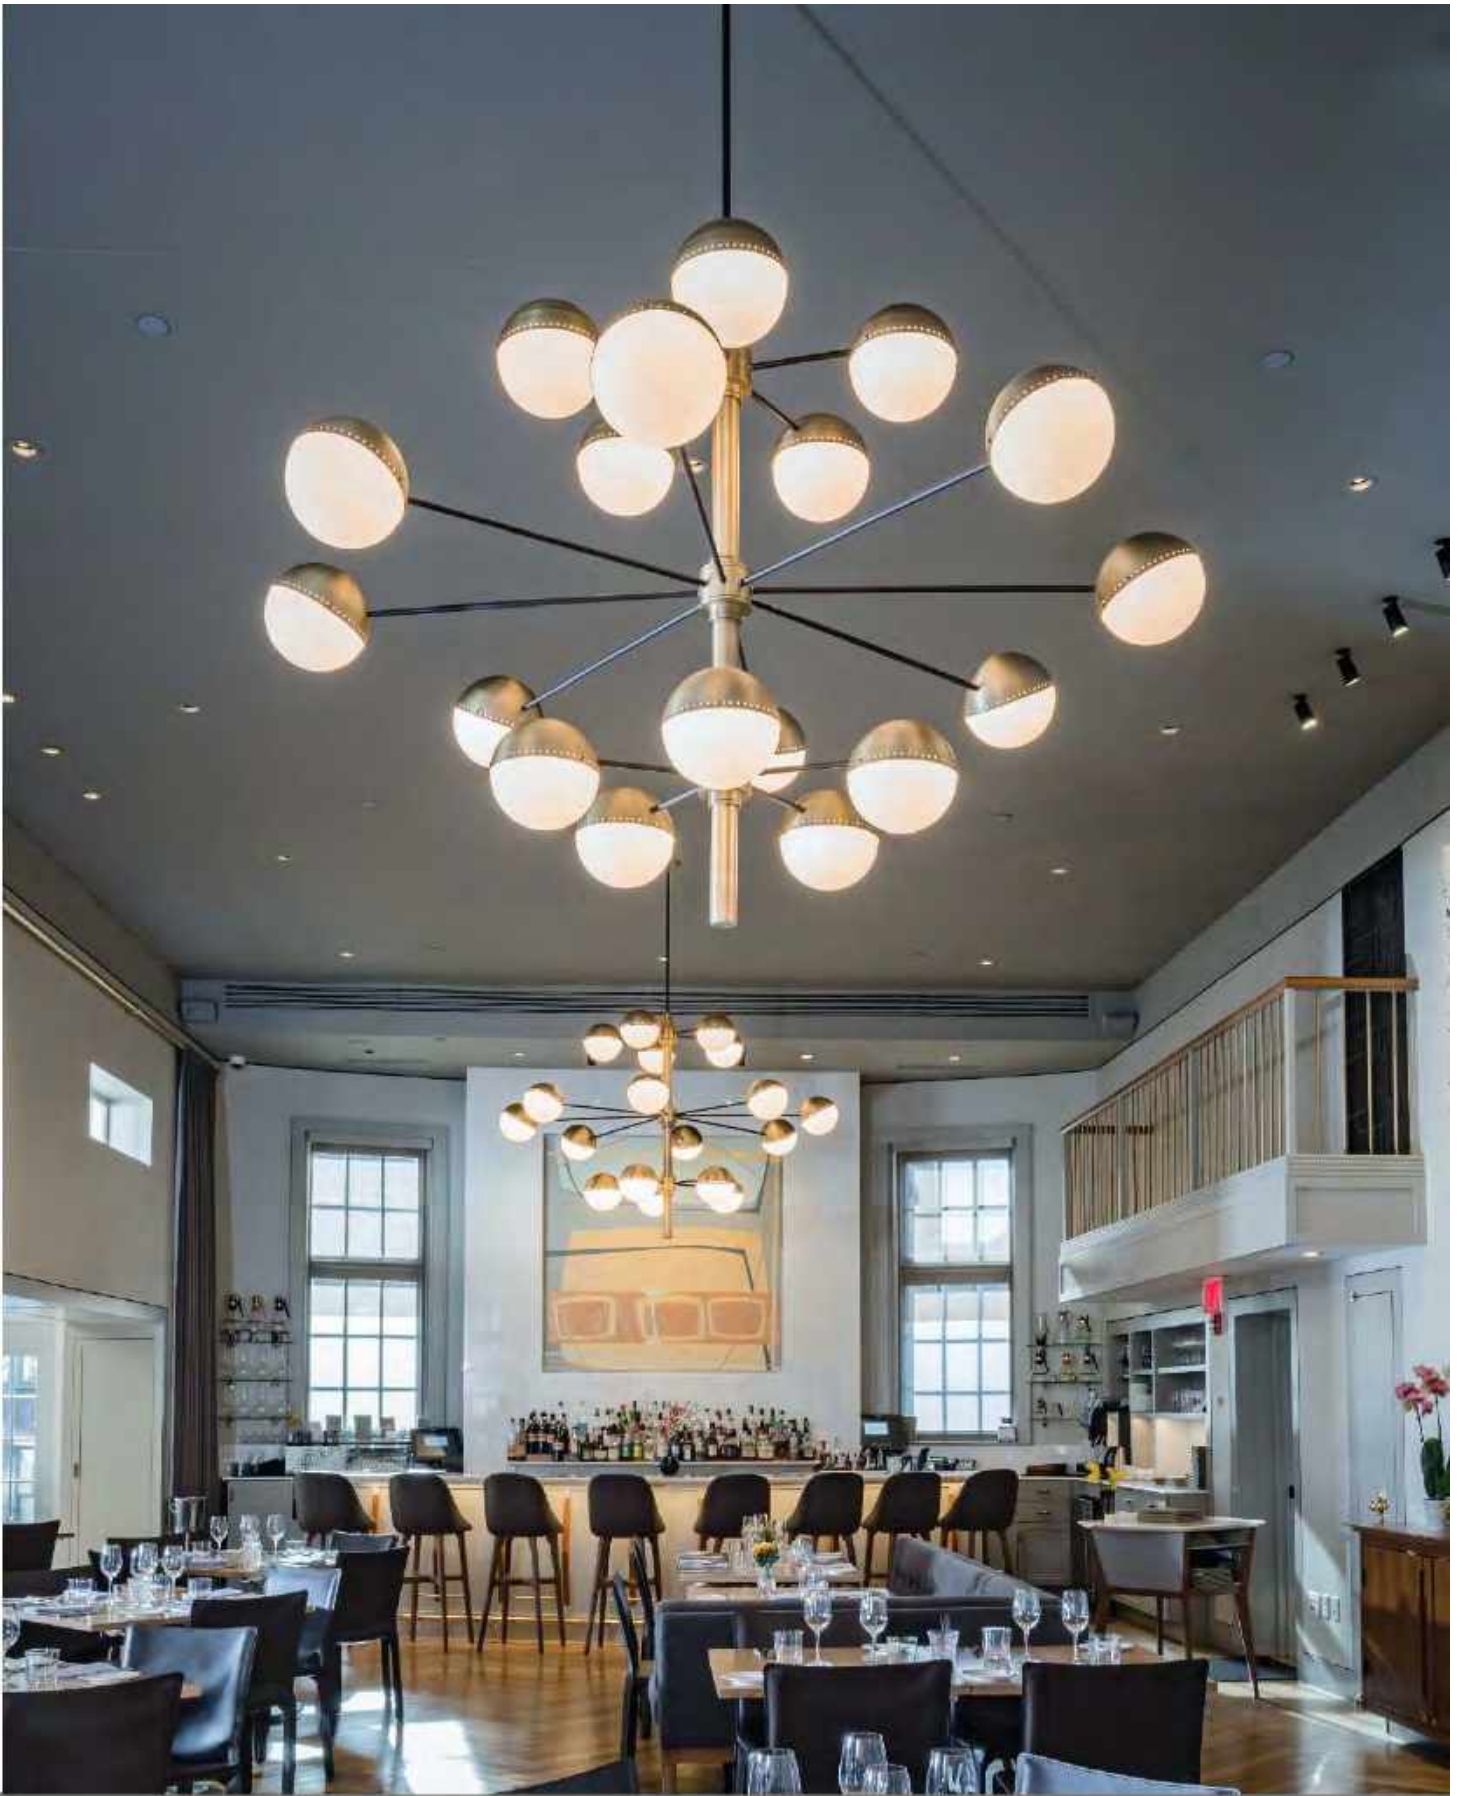

Our quality assurance teams make sure that what you specify is exactly what you get. This resource allows us to quote complete fixture packages and deliver them at competitive pricing.

The fact that we don't simply contract out work but have ILEX employees on the ground, enables us to ensure both quality and cost controls. This unique arrangement has supported our accounts for almost two decades.

SOLID BRASS

The 60" Ghost Rectangle

Ghost, our signature design, takes a spirited new form in a 60-inch rectilinear Chandelier

SOLID BRASS

Ghost Rectangle Pendant Chandelier 60"
Black Organza shade / Matte Black
Copper candelabra sleeve

Ethereal in appearance, spirited in form, Ghost makes a new entrance in a 60 inch rectangular version. This latest design incorporates all the features that have made Ghost an icon in the ILEX collection: the intriguing contrast of sheer organza that flirts with exposed metal, rich finishes, simple lines, dramatic

size, and effective lighting capability.

It also demonstrates the versatility that is a hallmark of this series, offering the choice of materials in the dimensions you seek, for the customization you require.

Expertly handcrafted in America, GHOR60 joins its popular siblings in the Ghost family.

30" Hatbox Round, Sat In Brass
Black Fabric Shade

Crisp and contained, our Hatbox Series puts a contemporary spin on timeless elegance. Four traditional shapes—oval, round, rectangular and square—assure the understated sophistication you seek, while a selection of sizes in pendants and flush mounts, as well as popular finishes, meet the demand for variety. The diffuser is available in Shiny Opal Acrylic, accompanied by a choice of six classic shade fabrics for further options to customize. Sconces are ADA compliant.

Geometric lines give way to soft finishes and eye-catching Shantung silk shades to form the essential details of the Temple Series. The Temple 6 Pendant serves as the collection's star, featuring noteworthy details such as six tall muted shades set a top angled arms pin wheeling from a central modern metallic stem. Two light and four light pendants and two complementary sconces round out the series.
