

Meyda
TIFFANY LIGHTING

Our History

Meyer Cohen
Co-Founder of Meyda Lighting

Meyda Tiffany was founded when Meyer Cohen was asked by his wife Ida to build a stained glass window in their kitchen so they wouldn't have to look at the "vintage" cars in the neighbor's driveway. Their names were combined to create the company name of Meyda. What began as a hobby evolved into America's manufacturing leader of custom and decorative lighting.

Today Meyda continues to operate as a family-run business, with the Cohens' son Robert and his wife Ellie, at the helm and grandsons Chester, Max and Ben by their side. The Meyda family of companies has evolved and is based in our 144,000 square foot corporate headquarters, design center, and distributing and manufacturing facility in Upstate New York.

Meyda family roots date back to supplying original lighting designs to Tiffany Studios in New York City during the early 1900s. The Meyda Tiffany Lighting brand features art glass classics and original designs utilizing the famous copperfoil construction process; many are produced in overseas factories.

Meyda Custom Lighting offers American-made capabilities to create distinctive architectural lighting, from an entire series of luxurious luminaires to that one of a kind masterpiece for residential, hospitality and other commercial environments.

Inspired by the Arts & Crafts Movement, the Craftsman Signature Series features an infinite array of indoor and outdoor art glass, mica, copper and brass lanterns that are naturally distinct.

Metro Fusion features a variety of custom fused glass luminaires with eclectic and breathtaking designs, including whimsical and creative artistry.

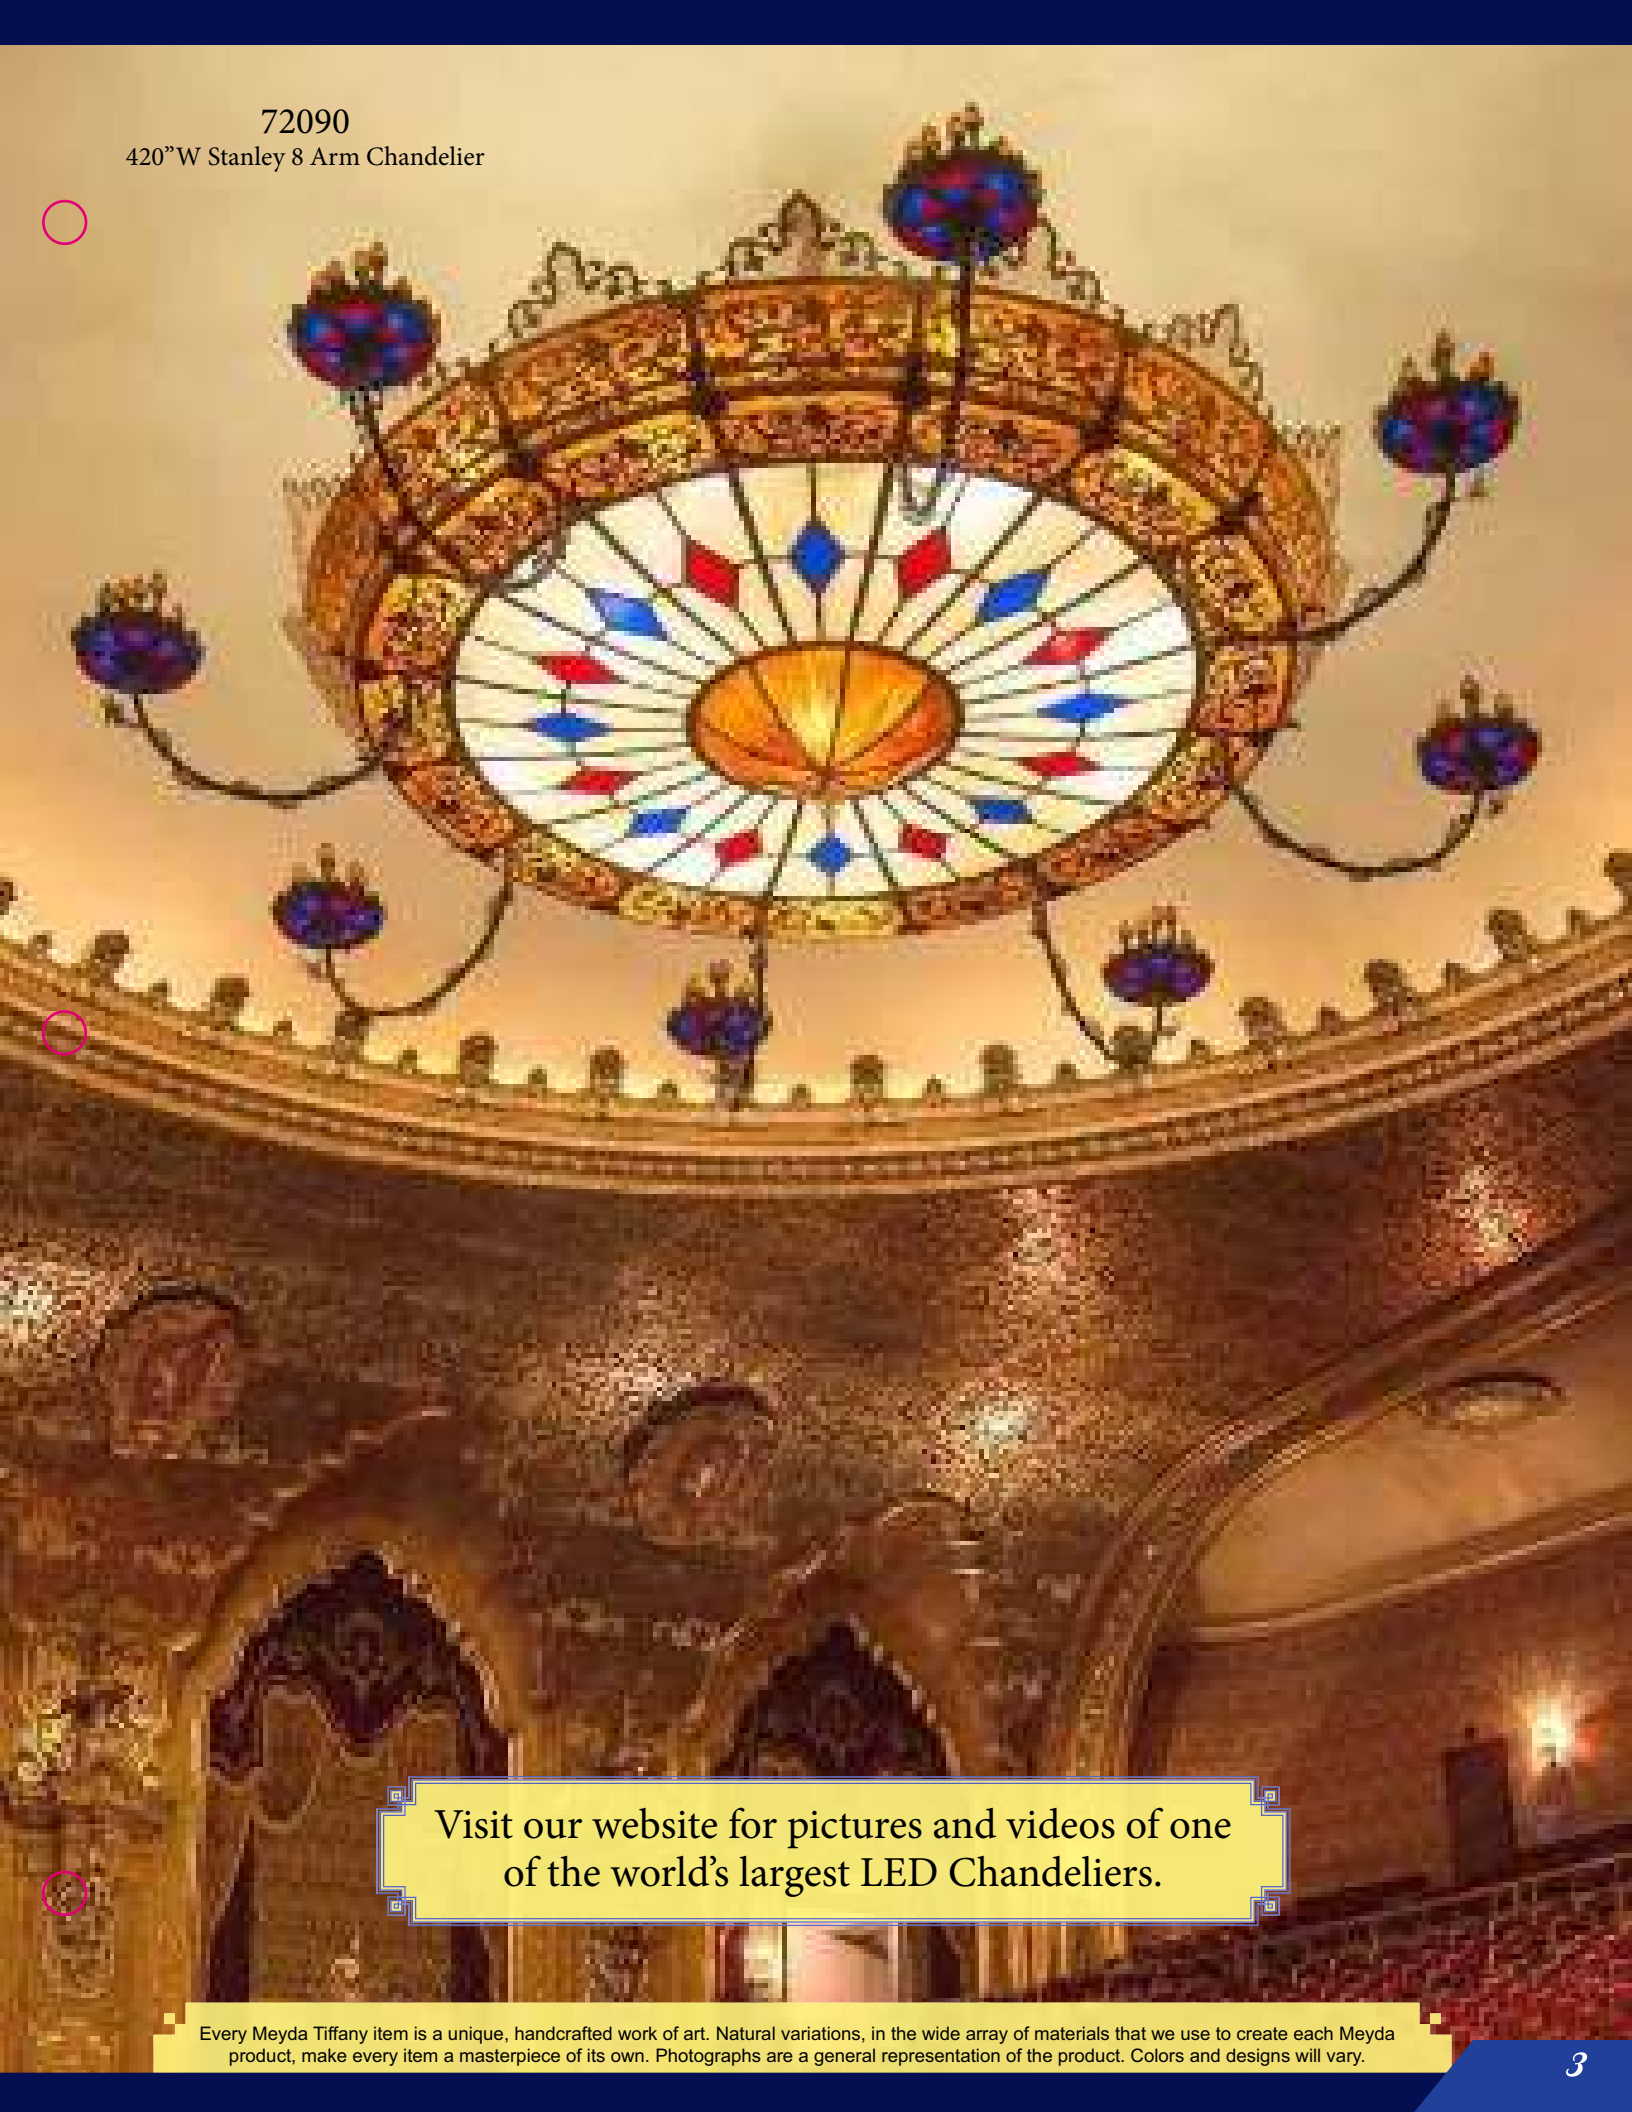

Located in the foothills of the spectacular Adirondack Mountains in Upstate New York, our *Inspired by Nature* offerings include a multitude of charming rustic designs that draw inspiration from the natural landscape and wildlife.

Personalized lighting can be created with your family name, brand or logo. Individualized designs can be made to your exact specification of size, color, style and lamping, including dimmable energy efficient LED.

With many years of designing, engineering and manufacturing expertise, Meyda develops innovations, technologies and value that transcend architectural lighting for any budget or economy. Our diverse talent creates chandeliers, pendants, wall sconces, table and floor lamps, outdoor lighting and stained glass windows, to meet your exact specifications. We are constantly pushing the envelope with new fabrication processes and materials while introducing dozens of designs weekly.

From modern marvels to gothic legends, nautical dreams to western prairie, our aesthetic palette is only limited by the imagination. We invite you to challenge us so we can fulfill your lighting needs today.

Visit our website for pictures and videos of one of the world's largest LED Chandeliers.

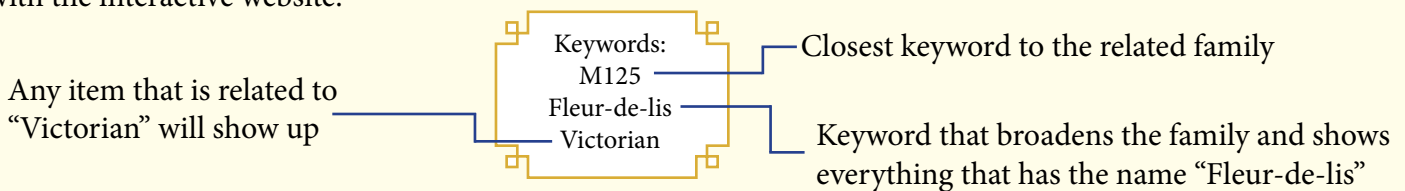

Every Meyda Tiffany item is a unique, handcrafted work of art. Natural variations, in the wide array of materials that we use to create each Meyda product, make every item a masterpiece of its own. Photographs are a general representation of the product. Colors and designs will vary.

Green Energy Strategies

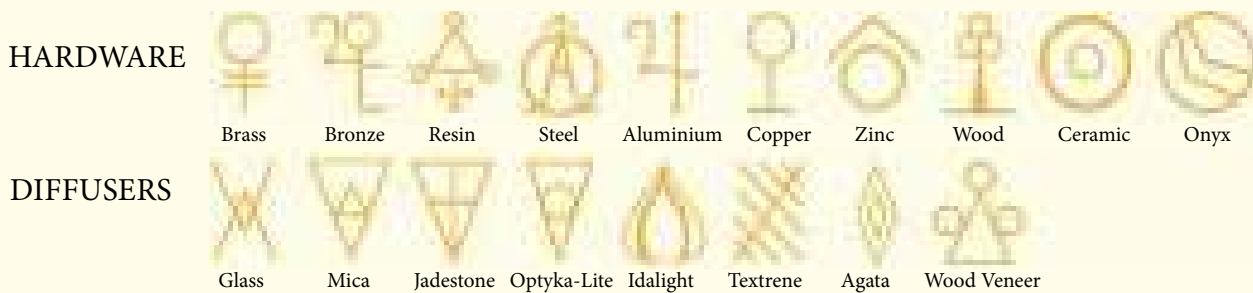

Many decorative lighting fixtures can be custom designed to accommodate energy efficient technologies to help conserve natural resources and create a better environment. Highly efficient custom lighting fixtures are consistently being designed and engineered to replace existing lighting in today's homes, hotels and commercial facilities, including LEED-certified projects, saving customers thousands of dollars in energy expenses. Advanced LED technology provides a high CRI for significant color rendition, substantial lumen output for robust illumination, and a broad range of color temperatures for various applications. In addition, a wide array of functional and decorative lighting equipped with efficient LEDs and recyclable materials are utilized throughout the Meyda manufacturing and distribution facilities, helping to minimize energy and reduce the carbon footprint.

Tools to Use This Catalog:

Each item in this catalog has a five- or six-digit number and a family name that can be used as keywords on the [Meyda website](#). On the website, each product is displayed with detailed information including product description, specifications, bulb types used, stock availability, multiple images, and the option to print or email this info to friends, family or colleagues. Related designs are also shown to help create a complete design statement throughout a residential or commercial space. This catalog works best when used in conjunction with the interactive website.

Material Icons:

Explanation of Location Listings:

Along with the specifications of each lighting product is a location listing featuring check marks that indicate Dry, Damp and Wet Ratings. Most of our fixtures can accommodate any UL rating, upon request.

Dry Rating indicates the item may be used in nearly any indoor area which is not directly exposed to excessive moisture and water.

Damp Rating refers to items used in sheltered outdoor areas or some interiors that are protected from direct contact with rain, snow, or excessive moisture such as covered porches and covered decks, as well as kitchens and baths.

Wet Rating means that the item is suitable for outdoor locations and will receive direct contact with rain, snow or excessive moisture such as fog or ocean spray.

Unique

works of art. A single sheet of art glass infused with natural color variations can produce several stunning art glass shades. Eye-catching hues deviate from sheet to sheet, shade to shade, lamp to lamp and fixture to fixture, due to the inherent nature of the material. Each shade is a sumptuous one of a kind, work of art evoking distinctive beauty, personality and rich character of color.

“ *eye-catching hues deviate from sheet to sheet, lamp to lamp & fixture to fixture...* ”

Images included in the Meyda catalog and website may not reflect all of the precise coloring found in every shade, however a project requiring a series with closely matching glass colors will receive extra attention, upon request.

Customize

a fixture by pairing hardware with the appropriate shade to meet the exact specifications of a project application and location. For example, this Delta Jadestone Flushmount required a custom canopy plate to center the light fixture over a new table location without having to move the J box.

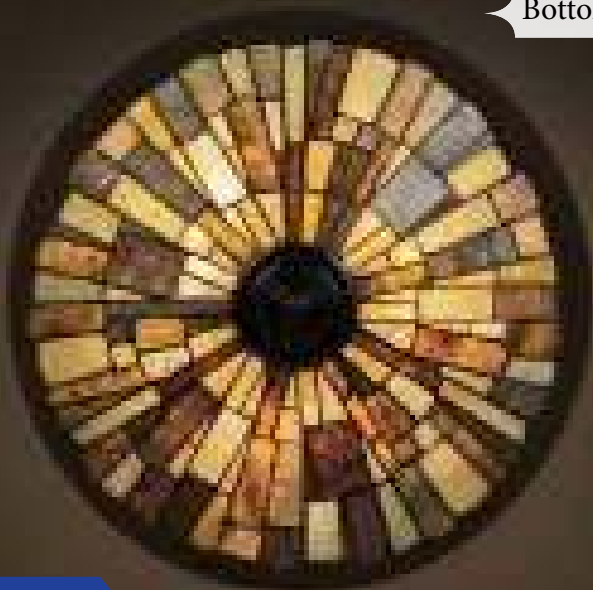

151905  

Delta Jadestone Flushmount
14.5" Height x 24" Width

“ *exact specifications of a project application and location...* ”

Imperfections on ceiling or wall surfaces can be covered using various fixture hardware. In addition, revolutionary designed canopies can be used with shades to accommodate flat or vaulted ceilings of various heights. Meyda fixtures incorporating highly versatile shades with wiring components can be seen throughout the website

Bottom View

Hardware

Uplights

can be placed in ceiling fixtures to deliver optimal ambient illumination by bouncing light off the ceiling, as exemplified by this Tiffany Candice Inverted Pendant. Shades can be inverted or re-configured to create special effects and layered lighting.

“ create *special effects* & *layered lighting*... ”

Suspension cables, cords and stems can be custom sized to meet height requirements. Stained glass shades can incorporate downlights to illuminate tasks such as cooking and reading while accent lights can highlight

Cherry Blossom

Cascades of jeweled cherries and flowers with verdant leaves create an undulating edge on these Tiffany Studios' Cherry Blossom re-creations. All are enhanced with Mahogany Bronze finished hardware.

Louis Comfort Tiffany created the popular Honey Locust design in glass, more than a century ago. Exquisite stained glass shades offer complementary lamp bases and fixture hardware featuring a warm Mahogany Bronze finish.

In this Tiffany Honey Locust family, decorative dome-shaped stained glass shades with petal shaped edges depict cascading colored blossoms that drape amid Green leaves.

One of Louis Tiffany's favorite patterns, the Peacock Feather is beautifully reproduced in handcrafted copperfoil construction by Meyda Tiffany artisans. A scalloped crest complements a ring of spectacular plumage.

Meyda offerings can accommodate your specific lighting requirements

- Fixtures are versatile for any location or application.
- Any shade can be interchanged with our hardware and wiring components.
- Configurations include: floor & table bases, & fixtures surfaced mounted to the ceiling or wall.
- Downlights available for task lighting, ie. cooking, reading, etc.
- - Uplights available to reflect light and increase ambient illumination.
- Highlight a textured wall with accent lighting.
- Check our website for a multitude of items that have already been customized.

Tiffany Rosebush reproductions feature the most adored of all flowers, the rose. Art glass roses ramble on a maze of garden leaves. Delicate domed shades are paired with exquisite, hand-finished lamp bases and fixture components.

Tiffany Tree of Life Stained Glass Window
Total Height: 48" - Total Width: 29"

How to Use a Stained Glass Window

The resplendent beauty of Meyda's stained glass windows and thoughtfully curated palette shimmers with light. Stained glass windows can be hung in front of a window by suspending them from the frame head or ceiling. They can also be used as sidelites installed alongside a door. Custom windows can be created in the designs or colors of your choice and built to fit into any window frame. In addition, art glass windows can be backlit with Meyda's integral LEDs for energy savings, quality illumination and long life.

How to Order a Custom Window

We offer complete custom capabilities to create stained glass windows and lighting fixtures featuring any design. Feel free to feature your company or organization name and logo, or family name and crest, with the colors, size, shape and style of your choice.

The nature inspired Foxgloves stained glass window was originally designed by the L. C. Tiffany Studio. Meyda craftsmen and artists have painstakingly reproduced this masterpiece with 824 pieces of hand cut and copperfoiled glass. Solid Brass hanging chains and brackets are included.

Lavish and beautifully colored art glass highlight these artfully created windows.

How to Use a Stained Glass Window

Stained glass windows can be hung in front of a window by suspending them from the frame head or ceiling. In addition, art glass windows can be backlit with Meyda's integral LEDs for energy savings, quality illumination and long life.

How to Order a Custom Window

We continually expand our custom capabilities to meet the challenging demands of creating custom stained glass windows for commercial and residential projects. Whether you provide us with CAD drawings, line art, images or chicken scratch on a bar napkin, we can transform your ideas into the stained glass window of your dreams.

Most are created using Meyda Tiffany's famous copperfoil construction process in our manufacturing facility in Upstate New York at the foothills of the spectacular Adirondack Mountains. We offer complete custom capabilities to create stained glass windows and lighting fixtures featuring any design. Feel free to feature your company or organization name and logo, or family name and crest, with the colors, size, shape and style of your choice.

Please contact us to discuss your custom windows.

Saranac and Utica Club are brands from Utica, NY-based F.X. Matt Brewing Company. Founded in 1888, it has earned a reputation as one of the country's most respected brewers of craft beers.

One of the

most recognizable and iconic symbols of our time, Coca-Cola®, a true American original, has teamed up with another true American original, Meyda Tiffany. Together they offer charming one-of-a-kind stained glass window and lighting designs.

“ *authentic Red, White and Green Coke designs* ”

Meyda artisans have re-created the authentic Red, White and Green Coke designs which are complemented with Mahogany Bronze finished hardware. The original Coca-Cola® stained glass shades were created in the early 1900s by our Quality Bent Glass division in the Bowery district of New York City.

The Crosshairs Mission blends Tartan plaid with geometric shapes inspired by the Mission movement. Impressive stained glass shades with a hexagonal profile feature a simple, elegant linear pattern of hand-cut pieces of glass wrapped in copperfoil and soldered together in the Meyda Tiffany tradition.

THE MEYDA CHANDEL-AIR™

A fan-tastic decorating innovation for a home, retail, hospitality or other commercial location. The award-winning Chandel-Air family adds drama and sophistication to any room. The Chandel-Air combines custom decorative lighting with an energy efficient ceiling fan fixture.

*“ this modern
marvel is designed
as an energy saver. ”*

Individually handcrafted in Yorkville, New York by highly skilled Meyda artisans, this Chandel-Air is designed as an energy saver. In the summer, a windchill is circulated throughout the space to keep cool and reversed in the winter to push warm air down to maintain comfort. Custom sizes, styles, finishes and dimmable lamping options available.

Louis Comfort Tiffany inspired Acorns dance playfully in a ring around geometric grid patterns on elongated shades. Constructed with Meyda Tiffany's famous copperfoil process.

Listen to the eerie calls of the Loon echo across the clear country lakes of the wilderness as these charming wildlife designs are depicted in eye-catching lamps, pendants and other ceiling fixtures.

Like wishing upon a magical star in the sky, create a unique decorative

look with timeless Moravian Stars. This design is inspired by original star lights that date back to 14th Century Europe and were used to protect homes and bring good luck to families. Featured in sparkling hues of Clear Seeded, Celestial White, Beige Iridescent and Multicolored art glass in stunning color combinations of Emerald, Sapphire, Citrine and Ruby jewel tones. Just to name a few.

*“ dating back to Moravia
in 14th Century Europe,
Stars were used to protect
homes and bring good luck
to families ”*

Moravian Stars are enhanced with hardware in a variety of handsome finishes. Custom sizes, styles, colors and dimmable lamping options, such as LED, are available. All are UL and cUL listed.

10 1/2" Texas Star Pendant
175000

TEXAS ★ STAR

12 1/2" Texas Star Wall Mount
175000

The bold Texas Star is featured in these dramatic lighting designs. Used to wash a wall from a steel sconce or provide ambient lighting from a Silver Mica pendant, Meida can create a variety of indoor and outdoor fixtures or lamps featuring the Texas Star and other star motifs.

Beach inspired nautical shells are highlighted on an art glass background. These exquisite shades are handcrafted using the famous Meyda Tiffany copperfoil construction process. This popular Koi fish design represents a powerful and energetic life force, demonstrated by its ability to swim against currents and travel upstream. A symbol of good fortune, success, longevity, courage and perseverance.

Originally created by Meyda Co-Founder Meyer Cohen, the Meyer Lantern was invented on the front porch of his summer studio in Old Forge, New York more than 40 years ago. This lantern is very popular among camps and homes throughout the Adirondacks and features a cornucopia of stained glass colors from a vast palette.

Decorative lamps add charm and visual interest to tabletops, mantels and counters. The "Griselda" sculpted base re-creates the famous oil on canvas painting by Maxfield Parrish, the great American artist known for his neoclassical imagery.

Inspired by the Favrile masterpieces of Louis Comfort Tiffany from the 1890s, Meyda creates these delicate shades with designs that marry sculpture with function.

Your Guide to Understanding How Meyda Measures Product

Glass, Idalight or Mica Shade

(H) Height is measured from top of shade to bottom of shade including cap and any decorative elements.

(W) Width is measured from extreme edges of shade. (Opposing point to opposing point for square, hexagon, octagon)

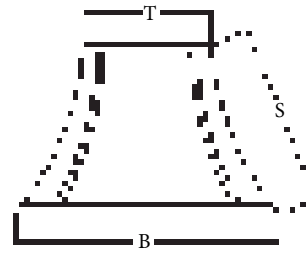

(Sq) Square measures the length of a side when a shade has four equal sides.

Fabric or Textrene Shade

(T) Top Width is measured from extreme edges of shade top. (Opposing point to opposing point for hexagon, octagon, etc. or when Square, Sq)

(B) Bottom Width is measured from extreme edges of shade bottom. (Opposing point to opposing point for hexagon, octagon, etc. or when Square, Sq)

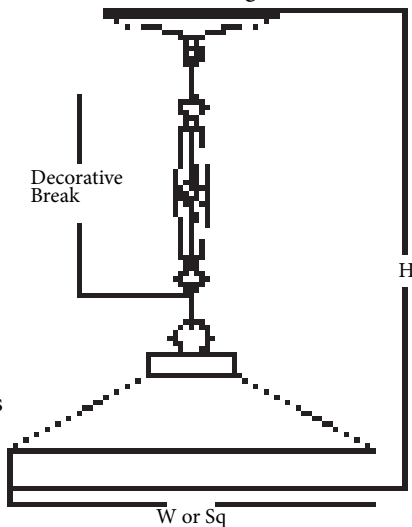

(S) Side Height is measured from top of shades to bottom of shade at the diagonal.

Pendant, Inverted Pendant & Mini Pendant

(H) Minimum Height is measured from top to bottom of fixture including canopy with one link of chain or one link at each end of decorative break. Maximum Height is measured top to bottom of fixture including canopy and all chain.

(W) Width is measured from extreme edges of shade. (Opposing point to opposing point for square, hexagon, octagon)

(Sq) Square measures the length of a side when fixture has four equal sides.

Chandelier

(H) Minimum Height is measured from top to bottom of fixture including canopy with one link of chain or one link at each end of decorative break. Maximum Height is measured from top to bottom of fixture including canopy and all chain.

(W) Width is radius x 2 as measured from the center of the fixture to the furthest point from center.

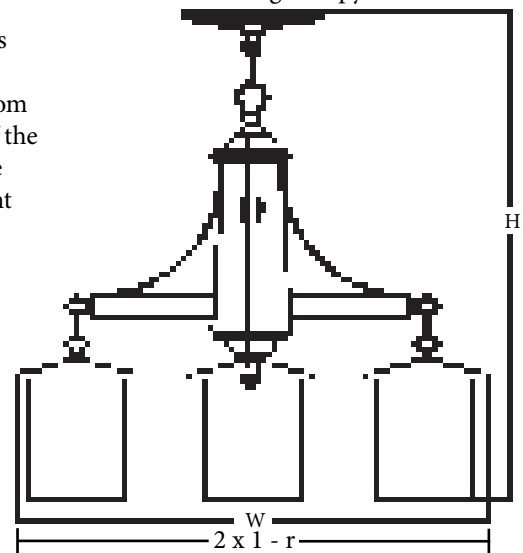

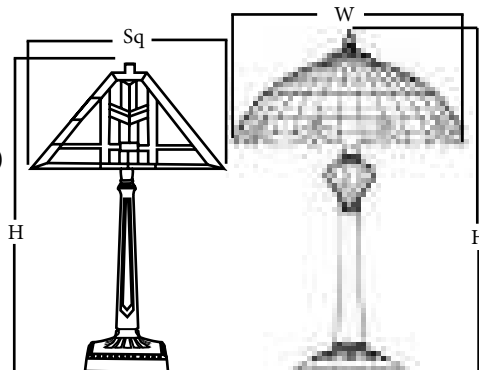

Table Lamp, Floor Lamp & Torchiere

(H) Height is measured from top of lamp including finial if any, to bottom of lamp base.

(W) Width is measured from extreme edges of shade. (Opposing point to opposing point for square, hexagon, octagon)

(Sq) Square measures the length of a side when a shade has four equal sides.

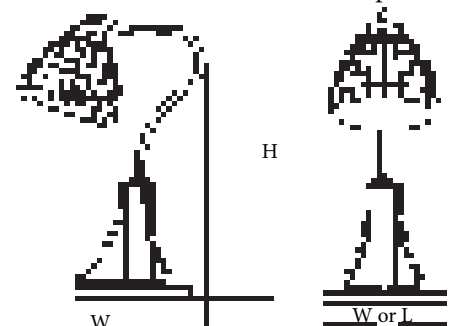

Bridge Arm Table & Floor Lamps, Desk Lamp & Bankers Lamp

(H) Height is measured from top of lamp to bottom of lamp base in practical application as pictured in catalog.

(W) Width is measured across the broad face of the lamp.

(D) Depth is measured from extreme front edge to extreme back edge of the lamp in practical application, as pictured in catalog.

Icons listed below are shown throughout this catalog to indicate the types of material used to create bases and hardware:

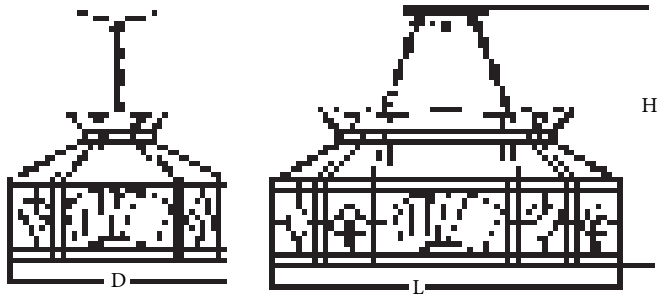

“Measuring Up” To Customer Expectations

Billiard, Island & Oblong Pendant

(H) Minimum Height is measured from top to bottom of fixture including canopy with chain at shortest possible height. Maximum Height is measured from top to bottom of fixtures including canopy and all chain.

(L) Length is measured across the broadest face of the fixture.

(D) Depth is measured from extreme front edge to extreme back edge of the fixture.

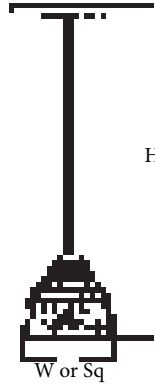

Stem Hung

(H) Minimum Height is measured from top to bottom of fixture including canopy with shortest possible configuration. Maximum Height is measured from top to bottom of fixture including canopy with longest possible configuration.

(W) Width is measured from extreme edges of shade. (Opposing point to opposing point for square, hexagon, octagon)

(Sq) Square measures the length of a side when fixture has four equal sides.

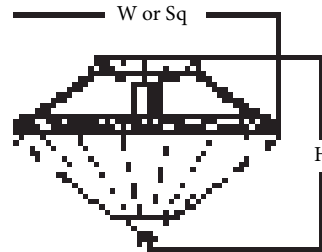

Flushmount & Semi-Flushmount

(H) Height is measured from top of fixture to bottom of fixture.

(W) Width is measured from extreme edges of shade. (Opposing point to opposing point for square, hexagon, octagon)

(Sq) Square measures the length of a side when a fixture has four equal sides.

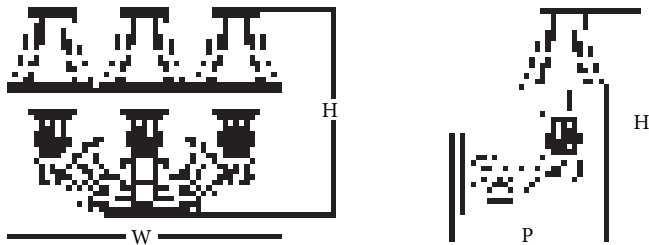

Scence & Vanity

(H) Height is measured from top to bottom of fixture including shade.

(W) Width is measured from extreme edges of shade. (Opposing point to opposing point for square, hexagon, octagon)

(P) Projection is measured from wall to extreme extension of fixture including shade.

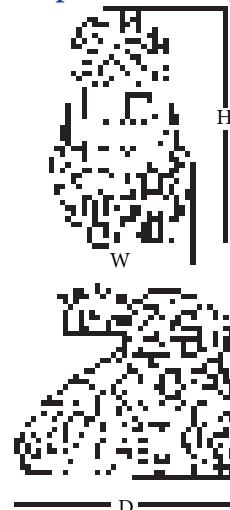

Sculpture, Novelty Accent Lamps

(H) Height is measured from top of sculpture to bottom of sculpture.

(W) Width is measured from extreme left edge to extreme right edge of sculpture.

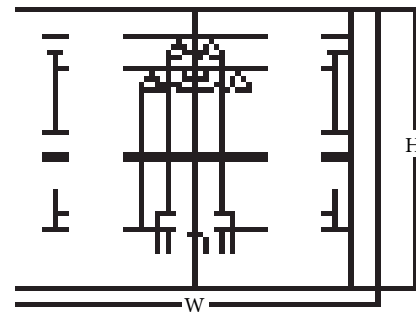

(D) Depth is measured from extreme front edge to extreme back edge of sculpture.

Firescreen

(H) Height is measured from top of the screen to bottom of screen.

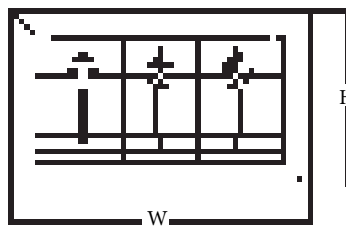

(W) Width is measured from extreme left edge to extreme right edge of firescreen fully extended.

Window

(H) Height is measured from top of window to bottom of window.

(W) Width is measured from extreme left edge to extreme right edge of window.

Wall Sconces
