TERMS & CONDITIONS

Rules of the Game

When you rent items from us, we want to ensure a great experience every time. Here is the important stuff.

Our products

Many of our items can run on battery. If this is important for your event we can advise options and ideas for the best solution for you. Once you have an event date and selected the items you require we can advise you on the availability and send a quotation.

Handling fee

We take great care of our products so that they arrive in great condition every time. A handling fee applies to each rental for the delivery, set up and removal of items. The amount depends on the location, quantity and type of items rented. Minimum charge applies. We also offer dry rental (collection & return by customer) for certain non delicate items against a deposit.

Branding

Many of our items can be branded, for which we need artwork in EPS or Illustrator format at least 10 working days prior to the event, price by quotation. You can also organise your own branding on certain items however we do not allow any third parties to brand our vintage party vehicles.

Rates and payment

Special rates apply for multiple day rentals. Bookings are subject to a contract and items are not blocked until payment is received. Prices are subject to change without prior notice.

Loss and damages

All items will be delivered in perfect working condition. Items lost or damaged will be charged to your account at our current replacement rates. For dry rentals (collection and return by customer) we require a security deposit. The deposit will be refunded upon return of the items in good condition on the agreed date. Late returns will be charged for.

Power battle

Battery or cable, which is best? Well it really depends on your requirements. Many of our products have been adapted for use. We are happy to advise.

What to choose, when and why?

Cable

- In many cases this gives the brightest light output.
- When you have an extended event, exhibition or multiple day event.
- When cables can be hidden.

Battery

- Ideal for use in remote areas like the desert but also for large surface areas like a cocktail reception at a pool deck.
- When an event is a single day.
- For colour changing effects.
