

INSTRUCTIONS FOR PRINTING AND ASSEMBLY

A4 BINDER COVERS

Print the covers onto good quality A4 or letter sized paper. Then insert each cover into the front of an A4 or letter sized binder for an instant binder facelift!

NOTEBOOK COVERS (best suited to notebooks sized A6 or smaller)

Print the covers onto good quality A4 or letter sized paper. Lay the printed cover patterned-side down and place your notebook in the centre.

Cut away sections of the printed cover at the corners and near the spine so you create tabs as illustrated below.

Then fold each of the tabs over and glue them onto the inside of your notebook cover.

Note: Notebooks come in all shapes and sizes, so make sure you test out the size of the printed cover to make sure it fits properly before gluing down the tabs.
