

METABREW GOLD MEMBERSHIP

GM GOLD MEMBERSHIP OWNER,

with your 10+ MBS Genesis NFTs you have the right to get your beer delivery with your own, custom label! We have updated the process for this claiming window:

1. Place the order for your free beer in our shop. Unfortunately, it is currently only possible to select one free beer package per order, so you have to go through multiple orders. Pls make sure that the shipping address is the same for all orders (required for validation in next step). We are working on a better solution for the future!
2. Write us an email to chantalle@metabrewsociety.com, attached with this filled out document.
3. Pls provide us all other info as listed below.

Once your label is designed, printed and the cans are labeled, we will send you your beer in packages of 60 cans.
