

MISSION OPERATIONS DIRECTORATE

Base Camp Protocol - Food & Drink

INTRODUCTION

The Ancient Astronaut Shuttle Crew, aboard the A.A.S.C. MOTHERSHIP, boldly explores the darkest, furthest edges of the tropical-flavor galaxy. Cosmic rays blast from a solar flare and blow the MOTHERSHIP's electronics into disarray. The psycho-space marauders are left with no option but to execute emergency landing protocols on the nearest planet.

Off-board, the tight-knit Crew explores the lush surroundings. They discover no sentient life, but unexplainable events occur and a lurking presence is felt. The mysterious, uncharted ecosystem has few resources to repair the ship -- but ample plant life and curious, intoxicating spirits.

In time, the Crew accepts that they are marooned in a sinister, fertile paradise. They establish a colony and fashion the ship into a base camp, including quarters of leisure. Together, the fearless crew members commit to adventurous coexistence with the natural life of the planet, not in desperate peril, but on a PERMANENT VACATION.

FOOD

EARTH FOOD

In the age of interplanetary travel, the world cuisines of Earth have melded into a single culinary category, to differentiate from other planetary cuisines.

"Earth Food" is made from the planet's flora, a synthesis of regional and historical influences. There is awareness of territorial origin, but also a unified, global whole.

Welcome to the world of Interplanetary Fusion.
