The Beautiful Story of Charme d'Orient

Charme d'Orient was born out of one woman's determination, enthusiasm and passion. Yasmina Zerroug's creativity is equalled only by her own personal vision of beauty.

In 1994, she set up her very first wellness centre in Paris with a desire to bring the beauty rituals that coloured her childhood back to life and to share them with other women.

Charme d'Orient's extraordinary adventure continued in 1998 with an original reinterpretation of the Orient based on history and Yasmina's own memories.

Through this very spirit of sharing and authenticity, each and every one of you will discover through Charme d'Orient the Orient that dreams are made of. One of travel, sensuality and culture.
