RADIOCONTROL

9265C

Ferrari

A HYVA GROUP COMPANY

9265C

Extension Quick System and Smart Extension Sequence
Fast, precise, safe

Heavy duty hook attachment
Ruggedness and durability in all applications

Link on second boom
Boom negative angle allows access to confined spaces

Link on column
Constant lifting capacity on all main boom positions

Endless slewing
Efficient use in all the vehicle positions

Ergonomic control station and user-friendly interface
Comfortable, convenient and safe

Always stable
More than 40 stabilizer combinations available

Break the boundaries in performance and safety

7" color display
Simple and quick access to all the functions and information

Vertical stabilizer levers
Safe and fast. Excellent supervision of stabilizing operation

Ergonomic control station engineered for maximum operator comfort and ease of operation

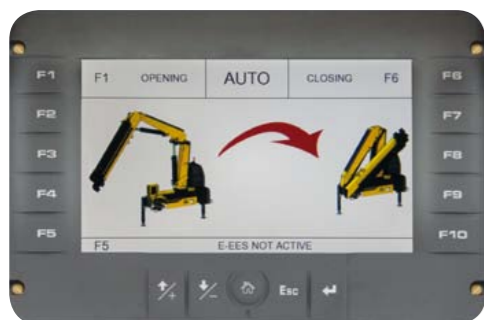

Dynamic Load Diagram

Crane lifting capacity always under control in all stabilizer positions.
After the truck has been stabilized, the operator selects the load weight to be lifted. The display shows the permitted crane outreach based on the truck stability and load selected.

- Improved efficiency
- Easy to use
- Optimised safety

Magic Touch

Crane Automatic folding/unfolding.
This system allows the operator to unfold the crane to a working position and fold the crane from any position to transport position by pressing a single button on the radio transmitter or display.

- Easy to start and close
- Save time
- Increased productivity and safety

High-tech development

- Structures optimised for strength, weight and speed

Top Protection

- High value retention
- Top reliability

Endless performance

Continuous rotation and extreme flexibility
Endless slewing allows the crane to be operated without restrictions. The complete access to the working area, eliminates the need to reposition the truck, optimizing precision, productivity and safety.

- Top efficiency
- Easy to use

Functional Aesthetic

Forged double linkages on column and 2nd boom

Hex Deck cover on base

Crane control system

F3XL

With a 3" TFT display and ergonomic keyboard, the crane operator can select optimum functional parameters. The system controls the stability with 2-step beam outreach monitoring and continuous slewing control.

F4XL+TOP

A 7" color display with integrated keyboard gives the operator a higher level of awareness of the crane operation and allows selection of the best parameters for effective use. The system detects the exact position of the beams and proportionally calculates the stability.

Wide range Radio selection

Standard

- Multifunctional radio remote control
- Sauer Danfoss PVG32
- P-PB Proportional Power Boost
- Flanged valves
- Designed in accordance with EN12999
- Design class: HC1-HD5
- Oil tank
- Manually extendable stabilizers
- Fixed stabilizer cylinders
- Swivel stabilizer foot
- Centralized greasing system
- EQS Extension Quick System
- SDV Smooth Descent Valve
- Red Power
- F3XL Crane control system (CE)

Recommended truck M.T.T. ton 18 - G.V.W. ton 18

One model, many applications

Waste handling
