

## Quick Start Guide N60/S60 ISO-UK

## Setting up your keyboard

- Turn on your computer or gaming console.
- Connect keyboard connector to one USB port
- You're ready to use your keyboard.

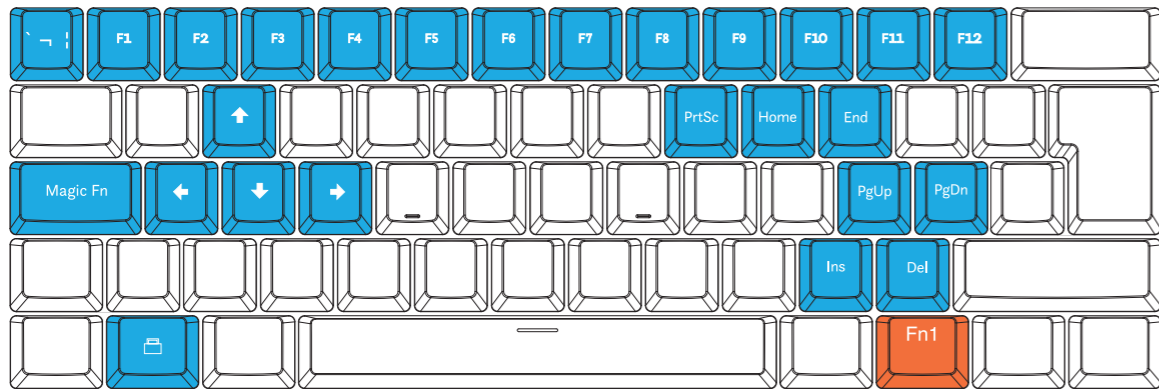

### PRO TIP

- Download the Ranked Utility from [www.ranked.gg/pages/download](http://www.ranked.gg/pages/download)
- Run the installer program
- Follow the instructions for installation.

## Function layer

Quick access to your standard function keys via

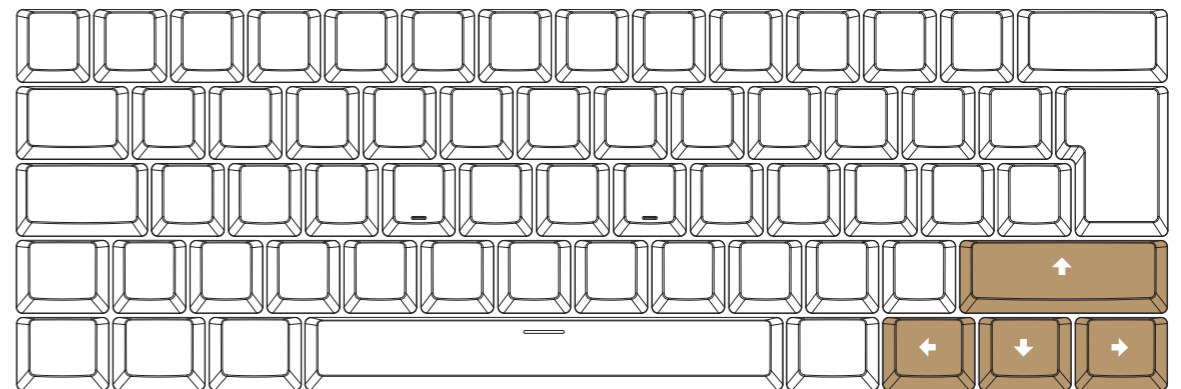

Press +

Windows key lock On/Off	Page Up	Home	Insert
Print Screen	Page Down	End	Delete
Magic FN On/Off <small>(needs to be activated via the software, function deactivated by default)</small>			

## Tap layer

Quick access to your arrow keys when tapping (<200ms)

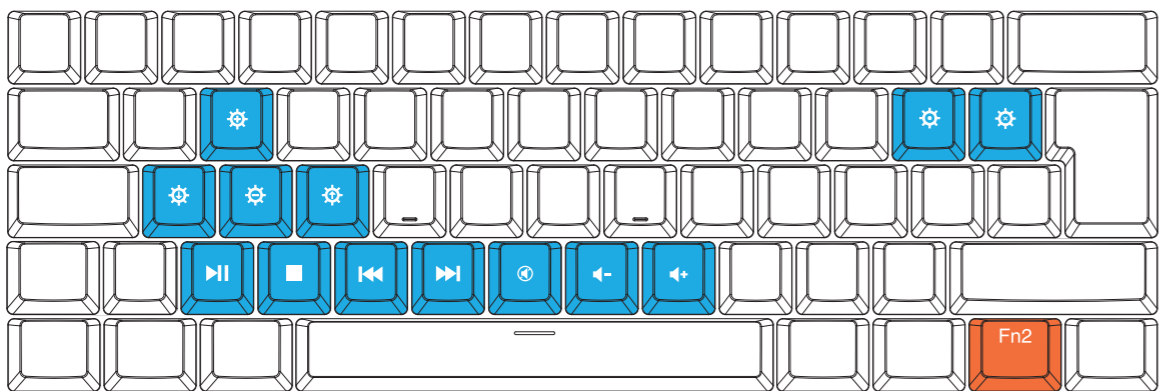

When the Tap function is activated, tapping (<200ms) the FN1, FN2, Right Shift or Right Control keys give access to the arrow keys. However, a long press (>200ms) will retain the default function, allowing more flexibility and expanding the keyboard's functionality.

### PRO TIP

With our industry first ability to customize Tap Mode, you can configure any key on your keyboard to activate any action of your choice. For example; you could configure your 1 key to instead of typing the number 1, but act as F1 when tapped/pressed quickly.

## Multimedia keys & lighting control

In order to get access to your multimedia keys you need to press +

• Adjust lighting effects:

Press +

- |                                 |                                     |                      |
|---------------------------------|-------------------------------------|----------------------|
| Increase brightness (10 levels) | Increase lighting speed (10 levels) | Switch lighting mode |
| Decrease brightness (10 levels) | Decrease lighting speed (10 levels) | Turn lighting on/off |

## Factory Reset

To clear the onboard memory, hold the + for fifteen (15) seconds. The keyboard will then power on normally and be reset to factory defaults.
