CRIMSON

WINTER PRET 2023

WWW.CRIMSON.COM.PK

The world is a dark place today. Our hearts are heavy and we carry around the weight of questioning our own happiness. We look at our children and are transported to the screams of those stuck under the rubble. We sit by a bonfire talking endlessly and think about all the homes that have turned to dust. We are reminded that nothing is forever, the color of your skin is still relevant and being born a few thousand meters to the left or right can transform your life.

As we grapple with these existential questions and challenge the very basics of "morality and civilisation", we also struggle with going on with our lives. Hearts heavy, minds wandering, eyes moist, we go on living and creating. Why? Because if there's one thing the past few weeks have taught us, it's that we must never stop living.

This collection is called Amal, which means Hope in Arabic. PKR 1000 from each online purchase will be donated to a charity working on ground.
