## DIRECTIONS

### Step One

Prepare surfaces by lightly sanding. Ensure they are clean, dry and free from oil and grease.

### Step Two

Mask off or cover surfaces not to be sprayed. Shake well before use.

### Step Three

Spray from 25 - 30 cm and apply a number of thin coats allowing ten minutes between coats.

### Step Four

Leave for 24 hours to allow paint to harden. After use invert can and spray for a few seconds to clear nozzle.
