## Pressure Treated Lumber Reference Guide:

APP GRD: Appearance grade, lumber that has minimal wane with various sized knots. No through knots.

#1: Lumber that has smaller, fewer knots and less wane than #2, recommended for applications where high strength and good appearance is desired

#2: Lumber has more knots and bark edges

#2Prime: Higher emphasis on appearance, with the strength of a #2 grade but will look more appealing

PREMIUM DECKING: High strength and appearance providing the best finish and look

KDAT: Kiln Dried After Treatment, select items and sizes available to order in, provides you with less cupping, splitting and checking. Allows for immediate paint or stain application.
