## Wickum Weld Core Values:

Our purpose is to be a blessing to our Customers, Vendors, Teammates and Community

We built our organization with great people

We don't serve to exist, we exist to serve

We "love people and use money" instead of "use people and love money"

We listen

We trust, respect, encourage and uplift each other

We strive to exceed expectations

We embrace new technology and new ideas

We do the right thing, even when no one is looking

Please contact our sales department for information on custom made products or any questions you might have.

Standard Oval Panel Cab Rack

# CAB RACKS

Wickum Weld Cab Racks are made with our signature oval tube out of long lasting marine grade 5052 Aluminum Alloy:

- Choose from 2 panel options: Oval, or Louver.
- Customize your panel with your company logo, your design or have us customize a design for you.
- Our unique panels are interchangeable and removable providing future flexibility.
- Choose feet length from 24 inches up to 99 inches for your application.
- Add accessories like, Lumber Ears, Beacon Plates and Lights.
- Add more options with our exclusive Wickum Weld Clamps. Our Clamps can be positioned anywhere on the rack.
- Upgrade to a durable powder coat finish.

Cross Box Brite Body—Diamond Plate Lid

## CROSS BOXES

Our Cross Boxes are built with 5052 Aluminum Alloy, one of the highest strength alloy grades. It has a high fatigue strength with excellent resistance to marine atmosphere and corrosion. Typical applications are marine and aircraft production and Wickum Weld Cross Boxes.

Wickum Weld's Maveric™ hinge design allows for full size lid with zero clearance by pivoting under the body flange. Our design allows for easily interchangeable and removeable lids.

Available with single lid or dual lid design, both come with "Gas Shock" technology.

All Cross Boxes includes sliding and removable tray hooks into place, with dividers and a mounting kit.

Choose between three different lid finishes, diamond plate, smooth, mill finish or brite finish.

Dual stage rotary latch technology combined with a push button actuator specifically designed to work with Wickum Weld top open tool boxes. First click vents, the second click seals.

Upgrade to a durable powder coat finish. All Welds are hand polished and tested for fit and finish before receiving their Wickum Weld name plate.

Jarrod Wickum, Founder and CEO of Wickum Weld

*Jarrod Wickum started Wickum's Welding service out of his garage in March of 2012. After about three years as a general welding and fabrication shop, the business model changed to manufacturing truck accessories. In April 2015, we incorporated as Wickum Weld Inc. Our vision is to design, build, and manufacture the highest quality truck accessories in the industry. We are committed to excellence—continually striving to provide exceptional customer service, superior quality, and to operate with integrity. We value the relationships we've built with our customers, suppliers, team members and our community.*
