

ML114

7-inch IPS Touch Screen

ML114 is a 7-inch touchscreen display, enabling the driver to have a comprehensive and intuitive view of the vehicle's surroundings. Integrated with Blind Spot Detection (BSD) and a fuel theft sound and light alarm, this setup significantly enhances the driver's situational awareness, facilitates more informed driving decisions, and safeguards the vehicle's fuel and overall property.

Key Features

360-Degree Surround View

Equipped with 4 high-resolution cameras, the system provides comprehensive coverage, eliminating visual blind spots and ensuring a safer and more confident driving experience.

Parking Surveillance

Monitors your vehicle 24/7, safeguarding against theft, vandalism, and fuel siphoning while parked.

Blind Spot Detection (BSD)

Real-time monitoring and alerts for vehicles in blind spots, enhancing safety during lane changes and turns.

High-Definition Recording

Captures crystal-clear video footage of the driving process, serving as reliable evidence for accident liability determination.

Product specifications

LCD	7-inch IPS Touch Screen
