Sasquatch Medium Beacon Dome Light Engineering Specifications

Overview

The Sasquatch Medium Beacon Dome Light lens is molded from a shatter-resistant, UV stabilized, polycarbonate material and is available in amber, blue, green or red. The top-mounted 360-degree visible beacon is useful in areas with high ambient noise levels where an audible signal may not be heard and is suitable for a wide variety of applications. It is UL listed and comes standard with a two-year warranty.
