

Glass Cutting Board Transferring Instructions

Read These Instructions COMPLETELY before you begin.

Supplies Needed

- Glass Cutting Board
- Black Wire Frame (optional)
- Heat Resistant Felt Pad
- 2 Sided tape (provided)
- Oven mitt or heat-resistant gloves (for removing product from heat press)

Step 1: Adjust Heat Press

Heat Press Temperature: **400° F**
Dwell Time: **3 to 3.5 minutes**
Pressure: **Firm**

***Note:** These instructions, including transfer times and temperatures, are based on the inks, paper, presses, and products we use. Your inks, papers, etc. may require adjustments in your time/temp settings.*

When gluing these tiles into wood or metal frames we recommend 100% silicone aquarium sealant.

Step 2: Design Your Transfer

Design your sublimation transfer so that the image is **right-reading**, not mirrored.

Step 3: Transfer the Image

1. Place the Heat Resistant Felt Pad on your heat press platen.
2. Place your transfer, face-up, on the Felt Pad.
3. Place the Glass Cutting Board, textured side up, on the transfer.
4. Using **Firm** pressure, press at **400° F** for **3 to 3.5 minutes**.

Step 4: Set into Wire Frame (optional)

You can set the Glass Cutting Board into the optional black wire frame using Liquid Nails or E-6000 glue, available at most hardware stores. Follow glue instructions provided with the product you use.

Transfer Tips, Techniques & Troubleshooting

Although the glass cutting boards are dishwasher safe, as with any custom-made product, we recommend hand-washing.

Sales & Marketing Tips

1. Package glass cutting boards with matching or complementary plates, coasters, mugs, glass steins, placemats, napkins, or other table accessories.
2. Drill holes in top two corners, using a glass drill bit, and hang the cutting board as a sun-catcher/stained glass piece.
3. Display glass cutting boards on stands to catch the attention of your customers.
4. When gluing these tiles into wood or metal frames we recommend 100% silicone aquarium sealant.
