

JOJOMIA

HOME & LIFESTYLE

Interaction with Nature

Create Your Own Story

ABOUT US

Tranquility, authenticity, and liberty are the fundamental principles that underpin Jojo's essence. These core values are intricately interwoven with the exquisite beauty of nature, which serves as the wellspring of inspiration for our designs. Our aspiration is to craft functional products with lines that mirror nature's vividness and vitality, all the while maintaining an inherent simplicity. At Jojo, we wholeheartedly believe in a lifestyle where every moment is an opportunity for serenity and delight. Through curating experiences that foster this way of life, we passionately advocate for the production of environmentally conscious products, thereby contributing to the sustainability of our precious planet

Buy less, buy better
Our colours are designed to mix and match so that they'll always be staples in your linen cupboard.

We advocate for a greener environment by minimizing plastic usage in packaging through the use of cloth bags, contributing to a more sustainable and eco-friendly approach.

Natural fibres
Mother Nature knows what's best, and by only using natural fibres in our products, it means that the manufacturing processes involved are better for the environment all round.

Incorporating mother-of-pearl buttons in our linens brings a touch of natural luxury, infusing the bedding with refined details and a distinct tactile experience

LONSE LINEN

Lonse Linen is a new fabric developed by the expert R&D team at Rateks Tekstil for the Jojomia brand. It combines linen and Tencel yarns to create a unique blend of natural fibers. The sturdy texture of linen transforms into a silky touch with the influence of Tencel.

The contrast of these two natural fibers to sustainable living is invaluable. Additionally, its breathable structure not only ensures a high-quality sleep but also provides a luxurious, wrapped-in-silk sensation.

LONSE

BEDLINEN

Experience a heightened level of comfort and luxury with our beddings crafted from Lense Linen. These sheets not only enhance your sleep quality but also offer the gentle embrace of natural fibers. Sleeping on this sustainable fabric feels like a weightless connection to nature, and the soft, silken texture of the fabric adds an exquisite touch. Our beddings are meticulously created by a team with three decades of industry expertise, leaving an unmistakable mark of craftsmanship. Indulge in pure luxury

PACKAGING

LITTLE THINGS ABOUT US

In a world that seems to thrive on complexity, we believe in the beauty of simplicity.

We refuse to impose bundled sets of bedding and homeware on you. Our philosophy is all about empowering you to make your personal choices.

Buy only what you truly need and create your own story
