OUTDOOR LIVING WITHOUT COMPROMISE

At Seaside Casual, we understand the demands of outdoor living. Design aesthetics and functionality need to combine with comfort and performance to create a truly premium experience. We focus our design process on our customers' wish for an outdoor living environment that represents their unique style and offers a place to escape the chaos of everyday life.

With time being a limited resource, Seaside believes your time outdoors should be spent in a welcoming oasis. A place that restores, refreshes, and brings peace to your day. We understand that worrying about exhaustive care and maintenance, replacing run down pieces, or storing and covering your furniture is not where you want to spend your time. For years, our products have offered the solution to these problems, and we will continue to explore and design products that elevate your experience with the outdoors.

From roof tops and balconies to porches and patios, outdoor furniture and accessories can completely transform your outdoor living spaces. Our diverse and unique collection of Dining, Deep Seating, Lounge, Lighting and Accessories are offered in enough colors, styles, and finishes to complement or redefine your outdoor lifestyle.

Seaside Casual values your time, your peace of mind, and your trust that we will deliver a premium experience. Our family has been committed to exceptional customer service, delivery, and quality since 1911 and will continue offering original designs, craftsmanship and the promise of Outdoor Living Without Compromise well into the future.

Colors & Materials

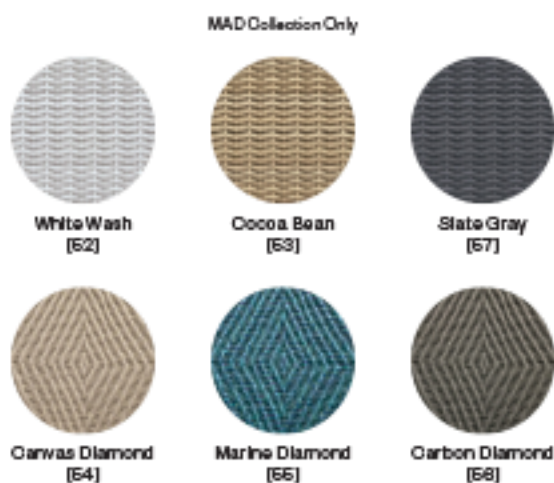

EnviroWood® Standard & Premium Colors

Offering the quality, comfort and beauty of traditional painted wood without the associated maintenance, EnviroWood® is crafted from recycled plastic bottles and is permeated with UV stabilized pigments. EnviroWood® Premium Wood-Tone Colors offer a textured, multi-toned finish, that provides a natural and sophisticated look and feel. All EnviroWood® is made from recycled HDPE bottle and jugs and is particularly suited to the harshest of outdoor elements with the lowest amount of maintenance possible.

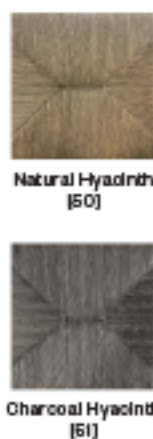

All-Weather Woven Panels

HDPE resin wicker with UV stabilized colors and Polyester Nylon Rope with an HDPE Core are woven into beautiful patterns that provide soft comfort. Made to last for outdoor settings with little to no maintenance, they are the perfect match for EnviroWood® or Powder Coated Aluminum frames.

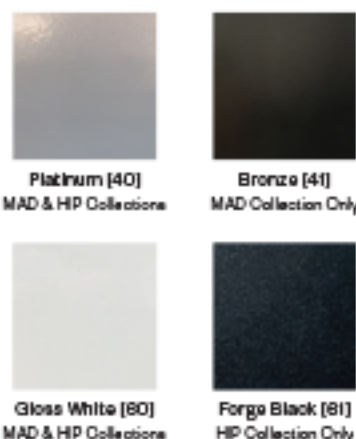

Greenwich Collection Only

Powder Coated Aluminum

Polyester powder coated aluminum frames stand up to outdoor environments. They combine beautifully with EnviroWood® EnviroWood® Premium, and Woven slat and panel options.

Due to differences in printing ink, actual color may vary from the swatches shown.

Outdoor Living Without Compromise

Our design philosophy centers around a belief that outdoor furniture should not have to sacrifice comfort and style for durability. EnviroWood's eco-friendly, low maintenance benefits combined with our attention to detail, ensure that Seaside Casual Furniture remains strong and beautiful for a lifetime.

Hidden Fasteners

Seaside Casual has developed multiple methods of concealing fasteners in many of our designs. From pocket screws to hidden brackets to the tap® system, we take every measure to provide indoor furniture style and craftsmanship for outdoor living.

Premium Wood-Tone Finishes

Made using the same high-quality recycled HDPE as standard EnviroWood®, Premium colors include a multi-tone and textured finish that brings a natural wood-like appearance to many of Seaside's most popular designs. Natural grain patterns combine with Seaside's solid structural construction to create a real wood look, unmatched in its class.

2-Tone

Now it is easy to create unique color combinations for many of our most popular items. Mix or match frame and slat colors using any of the EnviroWood® color selections available for that product. Order using frame/base color code followed by slat/top code, followed by the product SKU to create a 7-digit code. 2-Tone items are made to order and usually ship in a single box.

Fusion

Flexible, fast and fun, Fusion provides ease in customization with an array of color and material selections. All-Weather Woven and EnviroWood® slats, panels and tops can be mixed with aluminum and EnviroWood® frames by simply selecting a color/material option for each frame/base, then slat/top/panel followed by the product SKU to create a 7-digit code for easy ordering. Fusion items are shipped in two boxes.

A Commitment to Sustainability & Growth

Our twelve acre, 100,000 square foot facility provides the template for sound environmental stewardship. We have reduced and reclaimed thousands of tons of corrugated cardboard, wood debris, and other recyclable material previously moved into the waste stream. We also work on efficiencies that have already dropped our utility consumption by double digits, and we continue to work on responsible energy conservation.

EnviroWood®

Made using high-quality recycled HDPE (high density polyethylene), our HDPE is sourced primarily from milk jugs and bottles, reducing solid waste at landfills. Each linear foot of a 2" x 6" plastic board contains 3.2 pounds of recycled material making EnviroWood® one of the most durable, maintenance free and earth friendly materials used for outdoor furniture.

Rhode Island Roots

Every piece of furniture that we offer begins on the design table at our family-owned Rhode Island facility. All of the raw materials that we use to create our award-winning designs are machined, assembled, processed, packaged, and shipped by our team from our warehouse in Coventry, RI.

We stand strongly behind our "Made in Rhode Island" roots, including our continuing efforts to source our materials from within the U.S.A. whenever we reasonably can. However, some of the items we design require components which aren't readily available from domestic suppliers. As a US manufacturer, we believe in the importance of communicating to our customers which of our products contain imported components.

Choosing the right style and grade of fabric best suited to the space can be a daunting task. Our fitted cushions are crafted with materials from Sunbrella, Outdura or Tempotest, the leaders in outdoor performance fabrics. These fabrics are stain, fade and water resistant, making them as tough as they are beautiful. Choose from hundreds of patterns and materials or take advantage of our Customer's Own Material (COM) options to truly make it your own.

WHY CHOOSE SEASIDE CASUAL?

INDOOR COMFORT, OUTDOOR STYLE

Our lumber is milled and routed to simulate the look and feel often found in traditional wood furniture. The joints are secured using mortise & tenon joinery, while edges & corners are milled on precise CNC machinery. This results in a quality usually applied to interior furniture.

PEACE OF MIND

Feel good about your purchase with Seaside Casual's 20 Year warranty. Our products come with the support and commitment of a family owned company 100 years in the making.

SOLID AS A ROCK

Unlike molded products, our frames are constructed with HDPE lumber components designed to withstand temperature and load changes. Structural aluminum is used to reinforce critical frame members, ensuring our products do not tip, topple, or turn over.

STAINLESS FASTENERS

All stainless steel fasteners are not created equal. Low grade stainless or painted components easily corrode in harsh coastal environments. We use marine grade stainless steel (316) to ensure superior protection when exposed to the elements.
