

BOBBY LARGE

BOBBY LARGE profile system is specifically designed for the In Focus Luminations range of LED strip lighting. This aluminium mounting profile system incorporated extruded profile complete with opal colour PMMA diffuser.

The key features of the BOBBY is the ability to not only conceal the LED strip lighting but also keep the strip lighting linear. Also, free from foreign objects and vapours which may damage the LEDs.

Other key points is the invisible screw mounting which is hidden with-in the profile for surface mounting applications and the ability to integrate an LED power supply inside the profile. A substantial wrap around diffuser offers superior light output offering greater amounts of light. Many applications can be realised with this aluminium mounting profile.

* Profile sold per meter. Can be cut to suit any length.

** Accessories to be ordered separately.

*** Special powder coat finishes upon request.
Surcharges apply.

**** Some lengths may require remote driver
