► Precautions

1. This device may be affected by the weather such as rain and clouds, and the surrounding environment.
2. Depending on your environment and how you use it, battery consumption may increase.
3. Do not use this device for any other purpose such as children's toys.
4. If the person's eye is exposed directly to laser irradiation, or exposed to the sun or strong light through this device, his/her eyesight may be impaired.
5. The lens is coated, so care must be taken when cleaning. In order to prevent damage to the lens, do not touch the lens directly with fingers and rough material.
6. Do not keep this device in hot places such as exposed to direct sunlight, in closed vehicles on hot days, or with heaters.
7. The device may be damaged by liquids or other substances.
Do not use it in an environment where water can come into contact with it, and wipe off any foreign substances immediately.
8. Do not randomly modify this device such as dropping, throwing, putting in foreign substances, disassembling, incineration, etc.
9. Please use only a dedicated battery.
10. Be careful not to open the pouch and drop the product due to strong movement.
11. Natural cosmetic deformation and degradation of performance due to normal use and aging are not warranted.
