

SLOANE BUILT

SKEL TRAILER

THE FREEDOM TO DREAM

At Sloanebuilt, the control sits with you. This is the luxury that an Australian made product can offer. With your new creation starting and finishing all in the one workshop, your dream configuration will come to life. It is up to you, how far we go.

GETTING STARTED

From the moment you decide to start the journey to purchasing your new equipment, Sloanebuilt is with you.

Our sales team will work with you to understand your business goals and requirements. We take into consideration factors that can impact your business and new build - budget, colours, restrictions, routes, lead times - to produce a plan that will best meet your requirements.

Our sales team can also walk you through our workshop and help show examples of what can be achieved, to really hone in on what it is you need.

CREATION

Once the order confirmation stage is completed our team will start working behind the scenes on getting your new build created.

Our engineering team will begin drafting the drawings which will then be given to the workshop who will bring your creation life.

Throughout the build process our sales team will keep in regular contact, sending through photos and updates on the progress of the build. We also welcome appointments if you want to see in person your build come to life.

THE REALITY

When nearing completion, our sales team will make contact with you to organise the handover of your new build at a time that is convenient for you. If you can't make it to us, we can arrange for your build to be hand delivered directly to your business.

On handover, our team will personally give you a thorough tour of its features and functionalities. You will receive a Sloanebuilt delivery pack which includes all relevant paperwork on parts, servicing, warranty, registration, etc.

Once handover is complete, it is time for you to put your new build to work. Feel free to send us photos of your new build at work - we love to see updates!

IT'S A TEAM EFFORT, WITH YOU IN THE DRIVERS SEAT

SKEL TRAILER

It may not look like much but the bare bones provides a world of opportunity

THE BARE BONES

Customer demand has led us to design a range of single and multi trailer skels with the first being released in 2019. They offer our customers outstanding versatility, manoeuvrability, and ease of unloading, and is designed to provide a range of options to suit any application.

Like all Sloanebuilt products, they are designed and manufactured in house to meet standards and exceed expectations.

The Skel Trailers are available in a wide range of specs and are fully customisable to suit you and your business.

RECENT BUSINESS HIGHLIGHTS

We pride ourselves in everything we do here at Sloanebuilt. In our almost 40 years under the Marano Family ownership, we have achieved so much.

These accolades not only honour the efforts of our business and the team but also inspire others to reach greater heights in their respective fields.

Winning these awards for us, signifies the commitment to quality, customer satisfaction, and industry advancement, boosting our reputation and credibility. It also highlights the trust and loyalty our customer base has in us year after year.

Beyond the prestige associated with receiving such honours, we believe these achievements can also open doors to new opportunities, attracting investors, partners, and top talent.

REAL VALUES WE LIVE BY

WE THRIVE ON BEING INDUSTRY LEADERS

Innovation is at the heart of everything we do. We constantly strive to push the boundaries, challenge the status quo, and set new standards of excellence in the industry. Our passion for innovation drives us to continuously improve and evolve.

WE DELIGHT IN THE DETAIL

We understand that it's often the little things that make the biggest impact. That's why we take great pleasure in paying attention to every detail, ensuring that our products and services meet the highest standards of craftsmanship and precision.

WE LOOK AFTER EACH OTHER

As a family-owned and operated business, we value the importance of teamwork and support. We foster a culture of collaboration and mutual respect, ensuring that everyone in the Sloanebuilt family feels valued and supported.

WE'RE IN IT FOR THE LONG HAUL

At Sloanebuilt, we're committed to building lasting relationships with our customers. We understand that your success is our success, and we're dedicated to supporting you for the long term, ensuring that your Sloanebuilt trailer remains a trusted asset for years to come.

WE TAKE PRIDE IN EVERYTHING WE DO

From the smallest detail to the grandest project, we approach every task with unwavering pride and commitment to excellence. Our dedication to delivering top-quality products and services shines through in everything we do.

WE DO THE RIGHT THING ALWAYS

Integrity is non-negotiable at Sloanebuilt. We believe in conducting ourselves with honesty, fairness, and transparency in all our dealings. Doing the right thing isn't just a choice; it's our moral obligation.

Sloanebuilt is proud to be Australian.

Australian designed, Australian made, Australian supported.

Investing in a Sloanebuilt means investing in a product that is designed, manufactured and supported not only by us but by like-minded suppliers that understand what it means to focus on the needs of Australians, and with a parallel desire to meet standards and exceed expectations.

Australian made means supporting employees, businesses and communities right across the country throughout the supply chain.

Australian made is simply better, and that is Sloanebuilt.

We're proud to support Australia.

Our trailers have been made to support the Australian economy with the hundreds of Australian jobs it has created to manufacture our products, the Australian suppliers we depend on for support to maintain our reputable high quality finished products and the truck drivers working these trailers to keep the Australian population and economy moving.

Sloanebuilt. Built for Australia.

CUSTOMER TESTIMONIALS

“The quality from Sloanebuilt is why we have now standardised on their tubs and trailers. Every time you raise the bin and look underneath; you can see where the quality is built into the product. It is now very refined and very reliable. The way the hoses and wiring are clipped to the body; the care taken to get everything right the first time. You do not have any issues with their products, which are excellent together with their service levels. Sloanebuilt also takes care of all the PBS paperwork for compliance.”

Mick Colley, Bedrock Quarry Products

Choosing Sloanebuilt for the truck bodywork and the dog trailer was the best thing I ever did. Tim and the team could not have been more helpful and gave me a lot of assistance in the final specification. The advantage of the Sloanebuilt Low Rider design of aluminium tipper is that the bin sits halfway down the chassis, to provide a low centre of gravity. This benefits the combination of stability and safety and combined with Sloanebuilt's vertical shock or quad shock front axle option, ensures the trailer tracks and handles perfectly on the road.

Eddy Galea, Benedict Sand and Gravel

In previous businesses I have used different brands of bins and trailing equipment and had some issues. The Sloanebuilt product is second to none and the service levels they provide, from the initial builds to the back-up service or maintenance, is exceptional. We can send a new truck over to Fred and the team and its built ready to work in three weeks. You just don't get that anywhere else.

Danny Joseph, Loadranger

When I started Central Quarry Materials back in 2006, Sloanebuilt Trailers was my preferred supplier for all truck bodywork and trailer requirements. At the time, the relationship with Sloanebuilt was particularly important to us because of its expertise and involvement with PBS-compliant trailers. It went without saying that, as we created Select Quarry Materials, we would be working with Sloanebuilt. We have continued a very long solid long-term business relationship for over ten years, starting with truck and three-axle dogs, then to four-axle dogs, and it has continued as we became one of the first operators of five-axle dog trailers and 10x4 rigid tippers in Sydney. Sloanebuilt continues to work closely with our workshop, and as part of its customer support program it maintains a consignment stock of OEM parts located at the SQM workshop to cater for regular service requirements. The inventory is monitored and replenished by Sloanebuilt direct, to ensure that stocks are on hand, such as brake shoes, brake boosters, slack adjusters, etc., complimenting the tyre stock of new tyres already mounted on alloy rims and other parts such as filters and lights. In quieter times, our service team is also able to work with Sloanebuilt to undertake refurbishment programmes for older trailers, making sure that all our equipment incorporates the latest in technology upgrades. The overhaul gives even an older trailer the ability to remain in service behind a new truck and bin with good reliability as well as maintaining the very high level of fleet presentation we require.

Mark Allen, Select Quarry Materials

Thank you for building me this magnificent tipper body for the Isuzu Giga. From Bennett to the engineers, welders, spray painters, the workmanship was all first class. This truck was very much custom designed by the Sloanebuilt Team and I, so it was a bit unique even as a woodchip body. It was basically built to drop trunks in and cart chip. Not the easiest combination to work out, but Sloanebuilt....They did it. Well done!

Dave Romyn, Dad and Dave's Tree Services Pty Ltd
