J. HARVEST & FROST

Our mission is to bring passion and aesthetics to your workday. Harvest & Frost is built on the belief that aesthetics, quality design and precision craftsmanship play fundamental parts in our lives. In other words – we believe in order to thrive and find our passion while we work - we need to surround ourselves with things which inspire and encourage us.

WE ARE SHIRTMAKERS

We are a work shirt brand for men and women - and in order to succeed in our mission, and become “fuel for your passion”, we offer well-made, detailed and affordable work shirts of the highest quality. We aim to be that undefinable, yet powerful, intangible asset which aesthetics represents in your workday. J. Harvest & Frost was established in 2014 as a result of a collaboration between two brands – James Harvest Sportswear, rooted in U.S. college fashion with worldwide distribution and Frost, with its focus on tailored, well-cut garments in a small scale. Two excellent concepts brought together in one brand.

We started on a journey to develop our lines of high quality work shirts for men and women.

To be there with you – everyday - at the workshop, the office or at the pub – we set out to develop a collection of shirts which would meet the needs of those occasion. Quality, roughness, durability became our lodestars.

We found inspiration in early 20th century fashion, as well as books, movies, brands and classic designers. We were determined to create something unique – but still at affordable prices. We wanted to make each garment something we would've loved to wear ourselves.

NEVER DONE

Still, people's expectations and needs changes, so we realize, with delight, that our pursuit for that perfect work shirt will be never-ending and we'll continue our journey and search for the best fit, materials, details, stitches and techniques.

Making these products demands a holistic view on design, and we recognize that aesthetics are more than visual beauty. We live by the rule that quality design is the sum of three inseparable variables; excellent craftsmanship, the best materials and integrity. So, while we're on our quest to give you that little bit of extra beauty in your workday – rest assured – we have got your back. Work hard – and put all your energy into your own dreams. We'll make sure you're always dressed for the occasion.

Nothing beats the clean look of a solid dress shirt. But even at a solid color there are still some features that make our shirt stand out from the crowd. The shirt is crafted in our favorite high performance twill texture. This gives the perfect sheen to it, results in a substantial good hand feeling and makes it less transparent than similar white dress shirts. A split yoke in back, medium cut-away collar and a 35 mm. raised placket set the edge for this sharp, but classic shirt.

HOW TO MEASURE YOUR BODY

1) NECK

Place the measuring tape around the neck at the height where the collar would normally rest. This will be just below your Adam's apple. Stand relaxed. Do not crane your neck out or squeeze your chin down. The tape should be resting lightly on the skin, not squeezing it. Hold one finger under the tape measure to ensure some room for comfort.

2) SLEEVE LENGTH

Place one end of the measuring tape at the tip of the shoulder. where you imagine the shoulder seem of the shirt will be. Let your arm hang down at side, and run the measure tape along with it. Measure to the center of the meaty part of your palm. If you don't have a partner, measure a shirt with sleeves that is the right length.

3) CHEST

Run the measuring tape around the fullest part of your chest, tight up under your armpits and over the shoulder blades. Let your arms hang down in a relaxed, natural pose. Do not puff out your chest or arch your back in any sort of pose that isn't natural or sustainable.

4) WAIST

Run the tape around the fullest part of the belly. This is usually around the level of the belly button. The measuring tape should be snug on the skin, but not squeezing in. Let your arms hang down, and stand in a relaxed, natural pose. Do not puff out your stomach or try holding it in.
