**Please write the Length/Width/Height Sizes in the spaces provided** so we can install the fittings on the correct side of the tank. Indicate the position on where you require the fittings placed with either an O or X and the size of the spinweld fitting. **Please also mark the fittings on the 3D drawing.** Use a separate form for each tank.

**Looking from Top of Tank**

| Available Fitting Sizes |    |
|-------------------------|----|
| Inch                    | mm |
| ½                       | 13 |
| ¾                       | 20 |
| 1                       | 25 |
| 1¼                      | 32 |
| 1½                      | 40 |
| 2                       | 50 |
| 3                       | 75 |

The diagram illustrates the layout of a campervan tank with six main sections: Back, Top, Left, Right, Front, and Bottom. Red arrows indicate the dimensions for each section: Length mm (vertical), Width mm (horizontal), and Height mm (vertical). A 3D perspective drawing of the tank is also shown with corresponding dimension arrows.
