

Sideline® 60

Wall Insert Electric Fireplace

SIDELINE®60 FIREPLACE

80011 60" Wall Recessed Insert Electric Fireplace - Black

Touchstone's Sideline® 60 inch wall-mounted, electric fireplace is the big brother to Touchstone's popular 50 inch Sideline®. As with all Touchstone products, the Sideline®60 was developed using feedback from our customers, specifically contractors and installers. This larger format fireplace features a ventless design, with the adjustable heat coming from the vent on the face of the fireplace. Of course the Sideline®60 features Touchstone's amazingly realistic flame, which will leave your guests wondering if this is a real gas log. The Sideline®60 has a large black glass frame around the realistic flame, and it fills a wall with a really great design. You get the great look of a wall-length electric fireplace, without the mess and smell. The Sideline®60 has 5 flame settings and 2 heat settings, and the fireplace can be operated without the heat, so no need to wait for a chilly night to turn it on.
