

NAPOLEON

ELECTRIC FIREPLACES, MANTELS AND LOG SETS

ELECTRIC FIREPLACES, MANTELS AND LOG SETS
napoleon.com

The power to enhance any room

Napoleon's Electric Fireplaces are ideal for instantly upgrading any room. They are particularly convenient when it isn't feasible to install a gas or wood burning fireplace in a space. These Fireplaces are ready to spread comfort and warmth straight out of the box. Many models can hang on the wall like a piece of art while others install into the wall. For a traditional look some units are designed to be used in a mantel or existing masonry fireplace.

Modern and cost-effective, Electric Fireplaces use low-energy LED lights to create realistic flames that can be seen both day and night. They are easy to use and can even be operated by remote control, allowing you to set the mood with different colored flames and display options. Electric Fireplaces can be operated with or without heat for year-round ambiance. Whether for a commercial space or your favorite room in the house, an Electric Fireplace will add splendor and comfort no matter the situation.

CLEARion™ Elite 60 shown with Black Surround, Multi-Color Flames and Purple Ember Bed.

CLEARion™ Elite See Through Electric Fireplace

Built-In Electric Fireplace

The CLEARion™ Elite See Through Electric Fireplace is the first-ever truly see through electric fireplace. A CLEARion™ Elite Electric Fireplace can be hardwired directly into your electrical system creating a seamlessly relaxing environment in two rooms. Available in two sizes: 50" and 60". This unique fireplace can heat separate rooms at different rates, increasing the comfort of two spaces at the same time conveniently controlled with two remotes. The industry's first privacy mode allows you to change the transparency when privacy is desired. Customize this fireplace with either a sparkling crystal media ember bed or the hand-painted logs with Topaz glass embers; both sets are included. Illuminated from below by LED, color-changing lights, both ember bed styles glow with a luxurious feel that can be seen from both rooms.

Trivista™ Primis Series

Built-In Electric Fireplace

Napoleon's 3-sided Electric Fireplace Series comes in both a 50" and a 60" width and boasts the highest heat output in its category. Showcase the fireplace with the Northern Woods log set or acrylic crystals or combine them both for an amazing display. Effortlessly control all the features using the remote control or the touch screen panel with motion proximity sensor. End panels come with the fireplace to allow you to install the 3-sided fireplace as a 2-sided or 1-sided depending on desired location for installation. Enjoy Napoleon's Trivista™ Primis Series fireplaces year round with their ability to operate the luminous flames with or without heat.

Element™ Series

Built-In Electric Fireplace

The Element™ 36 Built-in self-trimming electric insert fireplace is a builder special and a tradesman's dream. It features the highest heat output and best looking flame in its category, and a hardwire installation or plug and play option. From the impressive flame pattern, the glowing log set with ember bed and the addition of a top light with seven different color settings, it is as sure to create eco-friendly zone heating as it is to create a beautiful focal point.

Cineview™ Series

Electric Fireplace Insert

Napoleon's Cineview™ Electric Inserts 26" and 30" fireplaces comes with both logs and glass media in one box, creating simplicity and flexibility for the homeowner to change up their look based on the season. Featuring orange, blue and multi-colored flame options and 7 different ember bed lights, the Cineview™ can be customized for any setting. Complete with self-trimming flange for a clean built-in finish. Plus, optional 3 and 4 piece trims are available when converting an old wood burning fireplace or creating a more substantial surround. The Cineview™ also comes standard with ECO mode and BOOST mode. BOOST mode acts like a 2-stage furnace, giving a little extra boost when it is close to reaching the desired temperature, while ECO mode conserves energy when needed.

Ascent™ Electric Series

Built-In Electric Fireplace

The Napoleon Ascent™ Electric 33" and 40" fireplaces imitate the look of a traditional masonry fireplace but with the convenience of simply plugging it in, sitting back and enjoying the heat and glowing log set! Napoleon's flame technology randomly adjusts the flame effect, color, height and speed creating the illusion of a true wood burning fire with a modulating ember bed for a realistic glow. Perfect for any room in a house, condo, apartment or office.

Stylus™ Wallmount

Wall Hanging Electric Fireplace

The Stylus™ is an wall mount Electric Fireplace that comes in two styles: the Stylus™ Cara comes with a 59" wide contemporary white surround and the Stylus™ Steinfeld comes with a 53" wide burnished walnut encased surround. Both feature a shelf lit up by an accent light and smart LED double USB plug that indicates when your mobile device has finished charging, by turning from red to green. The calming, eye-catching flames come in four color settings and five brightness settings which when combined with the six color options of the ember bed create the ultimate in customization - a perfect place to relax and unwind.

Alluravision™ Series

Wall Hanging Electric Fireplace

See the fireplace, not the frame with Napoleon's Alluravision™ Series Linear Electric Fireplaces. It stands out from the rest with its nearly frameless viewing area, highlighting the unique flame colors. Set the mood with yellow, orange, blue and multi-color flames with the push of a button. Easy to use, these fireplaces are plug and play - just hang on the wall and plug them in. Available in slim or deep models with different sizes to choose from. Slim and deep models are available in 42, 50, 60 and 74 inches and the deep model also offers a 100". All models include a crystal media ember bed and remote control. The NIGHT LIGHT™ and driftwood logs with topaz glass embers make beautiful additions to the deep model. Napoleon's Alluravision™ Series Linear Electric Fireplaces are about adding the fire, and not the frame to your favorite room.

Entice™ Series

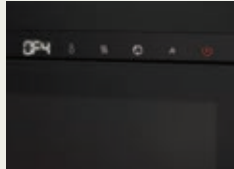

Wall Hanging Electric Fireplace

Make a statement in your home or a commercial setting with the Napoleon Entice™ Series Electric Fireplaces. The Entice™ Series extends a stunning clean face design with a larger viewing area and is offered in 5 different widths from 36" up to 72". This fireplace puts out an incredible amount of heat, glittering with multi-colored flames and a crystal ember bed. You don't need a specialist or a gas fitter for this expansive beauty, just hang on the wall and plug in for instant transformation of your space. Traditional orange flames, cool blue flames or a combination of the two will set the mood. The shallow depth means that this fireplace doesn't intrude into your living space, but simply accents it with the expansive view of the fire. Place this Electric Fireplace anywhere you want to make a huge impact, perfectly suited for either your home or a commercial setting.

Woodland™ Series

Electric Fireplace Log Sets

The Woodland™ Series are used in an insert style installation, just plug in and place in a pre-existing masonry fireplace. Backed by over 40 years of experience working with real flames, Napoleon is applying that knowledge to their rapidly growing electric fireplace line. These beautifully designed electric log sets offer authentic glowing logs and realistic flames. The Woodland™ Series comes in three sizes and allows you to enjoy the look and ambiance of a gas or wood fireplace without any mess, fuss or costly installation fees.

* Framing Depth is dependent on thickness of the wall.
 Certified under Canadian and American National Standards.
 Figures may vary with individual conditions such as floor plan layout, insulation value/heat loss of the house and geographical location.
 Measurements to be used as a guide only. Consult your owner's manual for complete and up-to-date installation instructions and proper clearances to combustible materials.
