

There is  
**so much to tell...**

FEG4916F  
**Engage**

**Front-facing Built-in Gas Fireplace**

Faber helps you create the atmosphere and look you desire for your unique space. Our built-in Engage models offer complete installation flexibility with four options to choose from let the room work the fireplace. Once installed, you have control over five burners; you can operate the gas flame height and width with the click of a button. The Engage is a bold and beautiful gas fireplace that creates a realistic wood-burning fire experience without the mess and hassle.

# FEG4916F

## Front-facing Built-in Gas Fireplace

### Media Options

There are three media bed options to choose from: a log set that provides an authentic fireplace look; Carrara Stones; and minimalist grey split stones that let the focus be on the flames.

### Adjustable Flame

Adjust the Flat Burner® flame height or even turn the outsides of the burner off to conserve gas consumption all while the center of the fire stays tall.

### Faber Flat Burner®

Flame height is adjustable as well as outsides of burner shuts off, reduced gas consumption.

### Rear Wall Steel

Provides a solid dark interior finish.

### Invisimesh

A protective layer of Invisimesh surrounds the glass barrier of the fireplace and provides a warm touchable surface safe for children and pets.

### Remote Control

Uses radio frequency to control all fireplace features from the comfort of your chair.

### Controls

Easily access the controls through the front trim after removing the safety screen and bottom trim, no need for an access door.

28,000 - 42,500 BTU
