

GRAND CANYON GAS LOGS

JUMBO SERIES

- Individually Cast Logs
- Hand Painted
- Cement Refractory with Reinforced Steel Fiber
- Stainless Steel Burner Construction

60" Jumbo Series Arizona Weathered Oak Gas Logs
Log Count 14 - 3 Burner

JUMBO SERIES

Our Jumbo Series matches our massive Jumbo burners with our hefty Jumbo Arizona Weathered Oak Logs. The 1" tines on the burner are a perfect complement to the 12" diameter of the Jumbo Arizona Weathered Oak front log. Big tines and big logs are not all this collection has to offer as massive flames are the final part of this 3 headed beast. Available in sizes 36" - 120" front view and see through. Jumbo burners have a depth of 21" and the Jumbo Slimline burners are 18" deep.
