TRAINING

by aige clinic

Hello & Welcome to aige clinics Skin training courses.

This brochure has been created to provide you with as much information as possible regarding our courses available allowing you to understand what you will get out of each course before booking.

Learning from my own experience when training to become a Skin Specialist, I understood there was a huge gap in the market when it comes to INTENSE & INFORMATIVE Skin training courses, covering every aspect and area possible on all courses ensuring my future students will not leave my clinic with a question unanswered.

So much time, effort & passion has gone into creating the best lesson plans, Informative Manuals & Information sheets for my students, which will create amazing foundations for my students to begin their journey in the hugely profitable industry.

All training courses will be kept at a 1:1 or 1:2 basis, this will help to create a personal, friendly & calming learning environment to help you get the most out of your chosen course & maximise your learning potential with me at aigeclinic.

INDIVIDUAL TRAINING COURSES

by age clinic

Create your own training course

You can create your own training course by choosing 2-3 individual courses to complete, I will apply a discount to your overall course fee if you combine 2-3 courses together.

This is an amazing option for those who have already qualified in other areas but want to add to your treatment options.
