

ACRYLIC INSTALLATION & CARE GUIDE

YOU WILL NEED:

- Velcro Dots
- Picture Hanging Strips

PREPARE

Before installing our acrylic wall art, ensure that your walls are sealed and smooth. Clean the wall surface. This material is suitable for indoor use only.

Install with care. We cannot accept liability for defects that are apparent at the time of hanging, nor can we be responsible for any consequential loss.

Due to the light-weight nature of our product, there are multiple ways and possibilities to hang your artwork. Our favourites are outlined below.

VELCRO

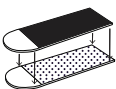

Option 1: Velcro

Purchase a pack of velcro dots from your local hardware or craft store. You will need a minimum of 4 dot sets.

Peel the backing liner off your first dot set and stick to one corner of your wall art. Repeat for the remaining corners. Remove the remaining liners and press the wall art to the wall for 30 seconds.

Follow packaging instructions for more detail.

PICTURE HANGING STRIPS

Option 2: Picture Hanging Strips

Purchase a pack of picture hanging strips from your local hardware or craft store. You will need a minimum of 4 strips.

Remove the backing liner. Press the adhesive vertically on the corner of the wall art for 10 seconds. Repeat for each corner. Remove the remaining liners and press the wall art to the wall for 30 seconds.

Follow packaging instructions for more detail

To Remove

Gently stretch the strip slowly against the wall at least 30cm to release. Do not pull the strip towards you.

If you are unsure, you can check out our [Acrylic Installation Tutorial Video](#) for visual aid.
