

## Entry Door Handle #08569768 Compatibility Check Points

---

Use this guide to help determine whether or not this handle will work as a replacement on your RV.

\*\*Please note that these are only guidelines to help - we can only *confirm* compatibility for REV Group coaches (Monaco, Holiday Rambler, Fleetwood, and American Coach).

If you do not have a REV Group coach, only your RV manufacturer can determine compatibility. We recommend that you call us at 616-330-1832 before ordering so we can help determine if this will work as a replacement. Thank you!

---

1.) Extended portion of deadbolt (silver portion) measures 1 7/8".

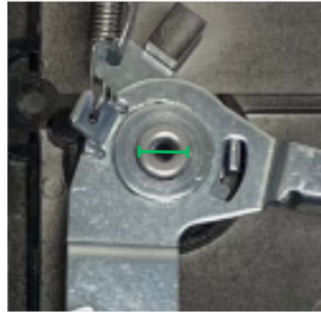

2.) The hole on the back of the interior latch measures 3 mm in diameter. The outer ring measures about 13 mm in diameter. If the hole on your latch is much larger than this, your latch may have been recalled - please contact your motorhome manufacturer for a replacement.

Hole = 3 mm diameter

Outer ring = 13 mm diameter

3.) Check that the plate / bolt portion on the back of the interior latch look exactly like the example below:
