• Always unplug heater if not in use.
• Do not allow children to operate this appliance. Keep appliance out of reach of children.
• This item is intended for indoor, household use only.
• Place appliance on a stable and level surface.
• Before plugging appliance into wall outlet, make sure unit is turned off. Turn off appliance before unplugging.
• Unplug appliance and allow it to cool when not in use and before assembly, disassembly, or cleaning.
• Ensure that your voltage is consistent with specifications.
• Make sure that no other high current appliances are plugged into the same circuit with the heater as an overload could occur.
• This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
• If any parts are missing, broken, damaged, or worn, stop using this product until repairs are made and/or factory replacement parts are installed.
• Do not use this item in a way inconsistent with the manufacturer’s instructions as this could void the product warranty.

WARNINGS

• Always unplug heater if not in use.
• Do not leave heater unattended when it is in operation.
• Heater gets hot during use. Do not touch hot surfaces.
• Do not move the heater during operation. When moving the heater, move it by the handle.
• Keep appliance away from direct sunlight and other heat sources (stove, heater, etc.).
• Never obstruct the air inlet and outlet openings. Do not place objects on the heater or allow objects to obstruct the inlet or outlet openings.
• Do not insert objects or fingers into inlet/outlet openings.
• Do not cover the unit when in operation.
• Do not run the cord under carpet or cover with throw rugs or furniture. Arrange the cord so that it cannot be tripped over.
• Do not run power cord over sharp edges/corners or a hot surface.
• Do not place outdoors or in a damp environment such as a bathroom or spa.
• Do not immerse the appliance or cord in water or any other liquid.
• Do not spill water on the electrical components or cord.
• Do not operate appliance with wet hands.
• This appliance has a polarized plug (one blade wider than the other), so the plug must be oriented correctly to fit into the plug.
• Do not unplug the appliance by pulling on the power cord. Always grasp the plug firmly and pull straight out from the outlet.
• Do not use with an extension cord as the cord may overheat.
• Do not use if the plug or any components are damaged.
• Do not use any accessory or fitting other than original accessories and fittings.
• Do not use this appliance with an external switching device or timer.

### TOOLS REQUIRED

- SMALL WRENCH
- 1 PERSON ASSEMBLY
- APPROXIMATELY 5 MIN. ASSEMBLY

### PARTS

- **A** U-BOLT
  - 2 PCS
- **B** CASTER FRAME
  - 2 PCS
- **C** CASTER
  - 4 PCS
**CONTROL PANEL**

- **HANDLE**: Use to roll radiator on its casters
- **RADIATOR VENTS**
- **THERMOSTAT**
- **POWER/HEAT SETTING**
  - Off – Both switches off
  - Low heat (600 watts)
  - Medium heat (900 watts)
  - High heat – Both switches on (1500 watts)
- **CORD HOUSING**
- **CASTER FRAMES**
- **CASTERS**
**SETTING UP THE APPLIANCE**

- Remove all packaging and accessories. Inspect appliance to make sure that it is in good condition.
- Place heater on a stable and level surface. Operate in an upright position only.
- Do not use without casters attached.
- Do not place on a soft surface like a bed or thick carpet/rug.
- Do not operate near or point the heater at furniture, animals, curtains, bedding, walls, or other flammable objects. Keep combustible materials at least 3 feet from all sides of the heater.
- Do not operate heater directly under a wall outlet.
- Do not operate the heater in areas such as a garage where explosive gas, gasoline, paint, or other flammable substances are used or stored.
- Do not operate in the immediate vicinity of water, such as near a bathtub, washbowl, bathroom, or swimming pool.

**PRODUCT ASSEMBLY**

1. Flip radiator upside down and lay it on a stable and level surface.
2. Remove wingnuts from two part A U-bolts. Hook a U-bolt through the vent closes to the front. Repeat to hook a U-bolt through the rear vent.
Angle the bent end of a U-bolt into the designated hole in a part B caster frame, then insert the straight end into the other hole. Replace the wingnut on the straight end to attach the U-bolt to the caster frame.

Repeat to attach a caster frame to the other U-bolt.

Remove the nuts from four part C casters. Replace the nuts to attach the casters to the two caster frames.

Flip the radiator onto the casters.
OPERATING INSTRUCTIONS

NOTE: Heater may emit a mild odor during first use. This is normal and should not continue.

1. Plug heater into a wall outlet. The power indicator light will turn on.
2. Turn the thermostat knob to the maximum (+) position.
3. Set heat to your desired heat level - low, medium, or high.
4. When the desired ambient temperature is reached, lower the thermostat knob to the minimum (-) position until it clicks. The heater will toggle on and off to maintain the ambient temperature.
5. To maintain a lower/higher temperature, set thermostat knob to desired temperature.
6. To turn off, turn heat setting off (both switches off) and unplug.

SAFETY FEATURES

Tip-Over Protection
The heater will automatically turn off if it tips over during operation. Immediately turn off, unplug, and set heater on a stable and level surface.

Overheating Protection
The heater will automatically turn off if it overheats due to obstructed inlet/outlet openings. Immediately turn off, unplug, and clear inlet/outlet of obstructions or dust. Wait 10 minutes for the heater to cool and turn back on.

CLEANING AND STORAGE

• Turn off and unplug the appliance before cleaning or storage. Allow unit to cool completely.
• It is very common for dust to gather in the inlet/outlet and cause overheating. Routinely wipe the housing and openings with a slightly damp cloth, or clean with a vacuum cleaner/dusting brush.
• Do not attempt to disassemble the heater.
• Do not immerse heater in water. Do not allow interior of heater to get wet.
• Do not clean with gasoline, benzine, thinner, or harsh cleaners.
• For prolonged storage, wrap power cord around cord housing and store in a cool, dry place away from direct sunlight and dirt.

All items can be returned for any reason within 60 days of the receipt and will receive a full refund as long as the item is returned in its original product packaging and all accessories from its original shipment are included. All returned items will receive a full refund back to the original payment method. All returned items will not be charged a re-stocking fee.

All returned items require an RA (Return Authorization) number, which can only be provided by a Best Choice Products Customer Service Representative when the return request is submitted. Items received without an RA may not be accepted or may increase your return processing time. Once an item has been received by Best Choice Products, refunds or replacements will be processed within 5 business days.

All returns must be shipped back to the Best Choice Products Return Center at the customer’s expense. If the reason for return is a result of an error by Best Choice Products then Best Choice Products will provide a pre-paid shipping label via email. Boxes for return shipping will not be provided by Best Choice Products, and is the customer’s responsibility to either use the original shipping boxes or purchase new boxes.

Pictures may be required for some returns to ensure an item is not damaged prior to its return. Items returned are not considered undamaged until they are received by Best Choice Products and verified as such. All damages to items are the customer’s responsibility until the item has been received by and acknowledge by Best Choice Products as undamaged.

PRODUCT WARRANTY INFORMATION

Manufacturer and seller expressly disclaim any and all liability for personal injury, property damage or loss, whether direct, indirect, or incidental, resulting from the incorrect attachment, improper use, inadequate maintenance, or neglect of this product.
