CAUTION: To prevent injury, always wear gloves and eye protection that meets ANSI Z87.1 and OSHA standards.
CAUTION: To prevent equipment damage, clean and lubricate threaded screws and holes before and after use.

INSTRUCTIONS:

1. This tool is used to lock the camshafts into position by being installed into the rear of the camshaft.
2. Included are two spacers which install into the tapered or grooved keyways of each camshaft followed by the locking bar into each spacer.
3. Once the locking bar and spacers are joined together, the installation is completed by installing the bolts through the spacers into each camshaft.

Bolt Dimensions:

Hex Head - 12mm

Thread to Thread Width - 6.77mm

Large bolt: Length - 110.25mm / Small bolt: Length - 85.25mm

Thread count: 1.0
