# ABOUT US

Across Africa, cranes are used in a range of construction, industrial, mining and agricultural sectors. These industries share one thing in common – they all want equipment and machinery that is robust, dependable and of excellent quality. We have established a powerful network across Southern Africa and we continuously aim to cement our position in the construction industry. Should you require industrial cranes, please get in touch with our crane specialists to ensure we offer the right crane for your requirements.

Contact us on email us now: [info@mankaten.com](mailto:info@mankaten.com) for more information

With a combine fleet of over 40 cranes ranging from 7T – 750T, between Mankaten (pty) Limited and her strategic equipment partners we offers you a full spectrum range of cranes (All Terrain, Rough Terrain and Truck Mount) that have worked a multitude of projects.

Experience includes project work in industries such as petrochemical, civil, commercial, construction, ports and wind farms, power and generation as well as SMP projects.

**MANKATEN PTY LTD**

**At Mankaten (Pty) Ltd, we pride ourselves as one of the best manage crane service provider across South African industrial sector. Our services covered mining, power, harbors, Oil & Gas, Manufacturing, Instrumentation and Installation of prefab plants.**

**Established in 2008 and fully registered in 2012 by very committed and hardworking individuals whose goals is to make plant maintenance and hiring easy for clients.**

**We have dedicated team who joined Mankaten with several years of core professional experience and sound business practices in maintenance of heavy duty lifting equipment, rigging services**

**For effective and efficient service delivery, we have over the years developed strategic partnerships/business alliances with equipment assets management companies within South African and beyond as we belong to various corporate associations within our industrial sector.**

**These strategic partnership enable us to deliver equipment provider and engineering services within record time.**

**Our equipment's strategic business partners and affiliates includes; Johnson cranes many others.**

# VISION

**Our vision is to grow and become the key team players in the supply, maintenance and renting/ leasing of heavy equipment maintenance solution industry in South Africa and other African countries with efficiency, reliability, responsiveness, accountability, punctuality and continuous improvement. We are very keen to develop people and create more job-opportunities**

# MISSION

**Our mission is to always be committed and work-hard to ensure growth to become one of the biggest suppliers in the industry. We thrive to be the best in providing quality service timeously and efficiently, to go beyond our promise to quality service to our clients.**

## **VALUES & MISSION**

**We are dedicated to customer satisfaction to strive for and understand and meet the needs of customers through quality service innovation and creativity to the best satisfaction of customers.**

**We are committed to service excellence to exemplify the highest standards of excellence through the provision of effective and efficient services**

**Good governance ~ to ensure good governance through accountability, integrity, responsibility and transparency and honesty to our customers**

**Building density in the transport system through focusing on the overall transport, heavy machinery by supporting and reinforcing current trends to build the backbone of the company the same time focusing on client's requirements**

## **TYPES OF MOBILE CRANES WE OFFER**

### **ALL-TERRAIN CRANES**

The machines in our All-Terrain range can operate easily on both wide-open construction sites and even in built-up urban areas. They can manoeuvre excellently and can travel at both low and high-speeds.

### **ROUGH TERRAIN CRANES**

These cranes are able to navigate the toughest of construction sites and landscapes and operate best at low speeds. They are robust and can pick-and-carry large loads as needed on most civil engineering sites.

### **HEAVY LIFT SOLUTIONS**

Through these specialist brands, we can offer you a complex and dynamic solution for any material handling and structure relocation

### **LIEBHERR MOBILE CRANES**

Through these specialist brands, we can offer you a complex and dynamic solution for any material handling and structure relocation

Liebherr is the world's largest manufacturer of crawler cranes, tower cranes and mobile cranes. Their portfolio includes a full range of All-Terrain mobile cranes.

These heavy lifters are capable of lifting 1200 tons and are routinely seen on power plants and industrial sites. They're also available for rental in South Africa

## **TYPES OF MOBILE CRANES WE OFFER**

### **LTM 1750 – 9.1 MOBILE CRANE**

The LTM 1750-9.1 has a telescopic boom that can move from being retracted to being extended for driving on public roads. It can handle a wide range of jobs in a range of industries, such as infrastructure and energy. The mobile crane is designed to have increased lifting capacities and cover a lot of surface area with the variable room system. It also has Y-guying that facilitate significant increases in lifting capacity.

### **LTM 1400 – 7.1 MOBILE CRANE**

Our 7-axle crane model is a real multi-talent. It has a wider range of boom combinations, which makes it appropriate for almost any job. It can be used in small spaces because of its compact design and incredible manoeuvrability.

### **LTM 1300 – 6.2 MOBILE CRANE**

This mobile crane has 256 ft of the main boom, 69 ft of the swing-away jib, 138 ft of the fixed jib, 230 ft of luffing jib, attachment parts for fixed mounting the luffing jib, two winches, 16.00 R25 tires, 12×8 hook block with 138 UST capacity, 5 sheaves, double hook block with 89 UST capacity, 3 sheave, double hook block with 40 UST capacity.

**MANKATEN PTY LTD**

## **TYPES OF MOBILE CRANES WE OFFER**

### **TEREX MOBILE CRANES**

Terex Cranes is a leader in the crane industry, offering innovative products and services designed to meet the needs of customers around the globe. With over 65 years of experience, Terex Cranes is a market leader in mobile cranes.

#### **AC 500 – 2 ALL TERRAIN CRANE**

The Terex AC-500-2 All Terrain Crane has the highest lifting capacities on 8 axles. It also features the longest system length in the 500-ton class. With a 56-meter telescopic boom, it disposes of the longest system length in the 500-ton class. This crane can travel at 12 tons axle load and has the highest lifting capacities available. Its max system length is 145.8 meters.

#### **AC 250 – 1 ALL TERRAIN CRANE**

The Terex 250 – 1 is an all-terrain crane with a maximum lift capacity of 275 tons. The maximum boom length is 262 feet and the maximum jib length is 118 feet. More sections of the boom can be purchased separately to increase the maximum length of the boom.

### **GROVE MOBILE CRANES**

Grove all-terrain cranes are designed for any environment. They are powerful, have off-road capabilities, are fast, and are incredibly reliable. With their service and support to back them up, Grove cranes are the best choice for your business.

**MANKATEN PTY LTD**

## **TYPES OF MOBILE CRANES WE OFFER**

### **GMK5250L ALL TERRAIN CRANE**

The most powerful and versatile five-axle crane in the market the new GMK5250L-1 lets you dominate the competition with performance capabilities that include the highest-rated capacity best load chart in its class best manoeuvrability quickest set-up time and most operator comfort and convenience in its class.

### **CRANES 4 LIFE**

We have a distinct purpose and passion for what we do. We work together 24/7 to ensure trust with every service. Should you be looking for cranes service provider in South Africa, please let one of our crane specialists assist you further.
