

Example #1: Open Indoor Area Coverage

This is an example of the **Advanced Ultrasonic Bat Repelling System** in an open area Warehouse. The unit is rated up to **7,000 sq ft** of **open area** coverage.

What does **open area coverage** mean? It means an area **without** walls, doors or any other obstacles that can get in the way of the ultrasonic sounds. The more obstacles/things the high-intensity ultrasonic sounds encounter, the less intense the bat repelling sounds become.

Hints:

When you **run into** a **Tough / Severe Bat Issue**, the best thing you can do to resolve the problem is to **Bring in more Units for More Repelling Power** to Blast the Bats from every angle.

Example #2: Minor Indoor Issue

In this next example (**right**) there is a **Minor Bat Problem** within the house. Placing one unit facing the most Open Area of the two rooms should force the bats out!

"BUT" if for some reason you're not seeing any results around the 16 - 20 day mark, it's time to cover the surrounding rooms around this problem area. Adding Repelling Power and creating Repelling Change is Key to Success for Tougher bat Issues.

WE CARE ABOUT YOUR RESULTS

In most cases, repelling bats with the unit eliminates the pest / bat problem within a 16-20 day period. If this does not happen, then it's Time to Let Us Help You.

Most of the time, we are just One Step Away from Solving the bat Issue

Example #3: Outdoor Issue

In this last example, (**bottom right**) we have a **Bat** problem outside the entry and kitchen of this home. You will want to place a unit in a covered area near each area that has seen activity.

Extension cords are a great tool to help you aim the speakers directly towards the problems & achieve the best possible position.

Using more units close to each other **creates a surround-sound, repelling-effect** which **demand**s the bats to **leave**.

REMEMBER: Repelling Power / Sound, Time Repelling and Repelling Change is what Drives Bats Out and Away

If your Bat Problem still persists after the 16-20 day mark. Please Contact us as we will Move to a **Stage 2** worth of Help/Repelling

If Ordered Online, it's **"BEST"** to Contact Us via the website you ordered from (e.g., Amazon, Walmart, Sears, etc.) or E-mail: info@cleanrth.com or Phone: 480-255-5113
