

## Example #1: Open Area Coverage

This is an example of the **Industrial Electronic Pest Repelling System** in an open area Warehouse. The unit is rated up to **9,000 sq. ft.** of **open area** coverage.

What does **open area coverage** mean? It means an area **without** walls, doors or any other obstacles that can get in the way of the ultrasonic sounds. The more obstacles/things the high-intensity ultrasonic sounds encounter, the less intense the pest-repelling sounds become.

### Hints:

When you **run into** a **Tough / Severe** pest Issue, the best thing you can do to resolve the problem is to **Bring in more Units for More Repelling Power** then Blast the pests from every angle.

## Example #2: Indoor Rodent Issue

In this next example (right) there is **Rodent Activity** seen within two rooms of this house. For best coverage, we placed one unit within each room (because walls, doors and obstructing objects reduce the repelling power).

You do have one of the most powerful pest repellers we sell, so it is easily possible to repel the whole house with one Industrial Model, but just remember that more Repelling Power = Best Results!

### WE CARE ABOUT YOUR RESULTS

In most cases, repelling pests with the unit eliminates the bat / insect / rodent problem within a 16-20 day period.

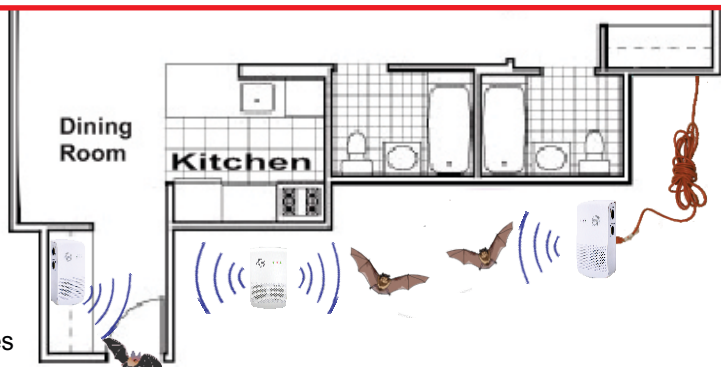

If this does not happen, then it's Time to Let Us Help You. Most of the time, we are just One Step Away from Solving the Pest Issue

## Example #3: Outdoor Bat Issue

In this last example, (bottom right) we have a **Bat** problem outside the entry and kitchen of this home. You will want to place a unit in a covered area near each area that has seen activity.

Extension cords are a great tool to help you aim the speakers directly towards the problems & achieve the best possible position.

When using multiple units, you start to **create a surround-sound, repelling-effect** which in return demands / dominates the repelling area.

**REMEMBER: Repelling Power & Sound, Time Repelling, and Repelling Change are what drives Pests Out and Away**

If your Pest Problem still persists after the 16-20 day mark.  
Please Contact us as we will Move to a **Stage 2** worth of Help/Repelling

If Ordered Online, it's **"BEST"** to Contact Us via the website you ordered from (e.g., Amazon, Walmart, Lowes, etc.) or E-mail: [info@cleanrth.com](mailto:info@cleanrth.com) or Phone: 480-255-5113
