

## Example #1: Open Area Coverage

This is an example of the **Advanced Ultrasonic Rodent Repelling System** in an open area Warehouse. The unit is rated up to **7,000 sq ft** of **open area** coverage.

What does **open area coverage** mean? It means an area **without** walls, doors or any other obstacles that can get in the way of the ultrasonic sounds. The more obstacles/things the high-intensity ultrasonic sounds encounter, the less intense the rodent-repelling sounds become.

### Hints:

When you **run into** a **Tough / Severe** Rodent Issue, the best thing you can do to resolve the problem is to **Bring in More Repelling Power** / Blast the rodents from every angle.

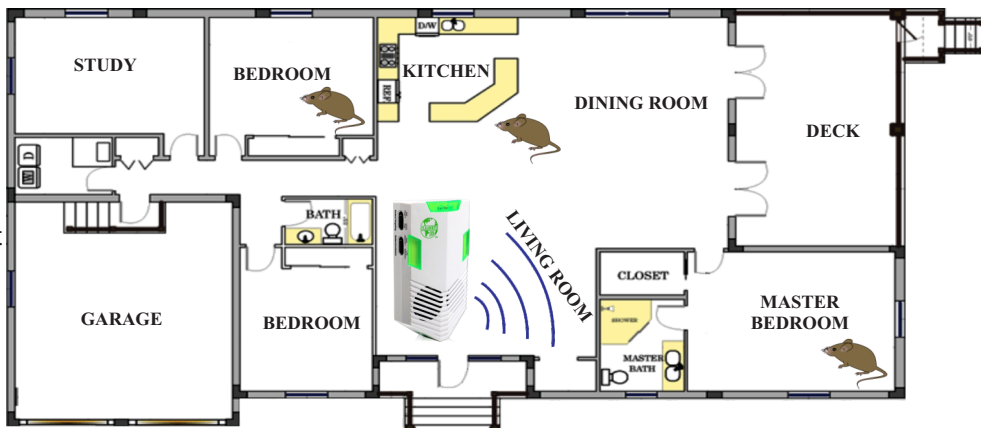

## Example #2: Minor Rodent issue

In this next example (Right) there is a **Minor Rodent Problem** all across the house. **One** unit **Can Repel** this **Whole Home "BUT"** this all **Depends on How Severe** the rodent problem is.

Set your unit as close to the problem area as possible, and face it toward the most open area of that room. The idea is to allow the sounds to fill the room / rooms.

Allow at least 16-days worth of repelling. At the 16-day mark, clean up any signs of the rodent issues. From this point monitor for any new rodent activity. If you do not notice any new activity: Great! your rodent problem should be repelled (Please keep on using the unit to keep future rodents out and away) However, if a **Problem Still Persists**, then it's Time to Let Us Help You (We need to create a change in repelling). Most of the time, we are just One Step Away from Solving the Rodent Issue (Please Contact Us and we will move to our **Stage II**).

## Example #3: Severe Rodent Issue

In this last example, (bottom right) we have a **Severe Rodent** problem throughout this home. You will need multiple units to ensure proper coverage of this severe type of issue.

You will want to place a unit within each room that you have seen or heard rodent activity.

This creates a **surround-sound, repelling-effect** which **demand**s the rodents to **leave** from **both sides** of the wall.

If your Rodent Problem still persists after the 16-20 day mark. Please Contact us as we will Move to a **Stage 2** worth of Help/Repelling

If Ordered Online, it's **"BEST"** to Contact Us via the website you ordered from (e.g., Amazon, Walmart, Sears, etc.) or E-mail: [info@cleanrth.com](mailto:info@cleanrth.com) or Phone: 480-255-5113
