

Running the Bat-Repelling Routine & What to Expect

1) Once set up & turned on, please allow eight days worth of repelling in 1 spot:

This is how Cleanrth's Advanced Ultrasonic Bat Repeller works:

Imagine that you hear a nearby car alarm going off. The sound is very annoying, but it's not enough to make you leave the area immediately. Eventually though, if the sound continues, you'll move to a different area and avoid that location as much as possible.

Bats within the repelling-sound area feel *Uncomfortable & Disturbed*.

Bats outside of the repelling area will feel Normal and Comfortable again.

Over time, this uncomfortable feeling trains the unwanted bats to avoid the area.

You may actually notice more bat activity after turning the device on; bats aren't as smart as humans and it can take them some time to figure out how to get away from the annoying sounds. They can also be stubborn, especially if they have access to easy food or a nest in the area. It takes time but they will eventually leave the area.

We typically see positive results within 16-20 days (sometimes sooner) of starting this bat-repelling training

2) Use the 8th day as a check point:

Do you still see bat activity on this day? Has the issue diminished at all? If the problem has improved; great, please continue to use the device in its current settings.

If the bats are still a **major problem then it's time to make a change**: Still please make sure **Bat Targeting Switch** is set to Stage 1, **Bat Power Switch** is set on Full Power. Now, depending on what you had it set to before, please change **Bat Confusion Switch** from Batonic 1 to Batonic 2 or Batonic 2 to Batonic 1. Also repositioning the device so that the speakers are facing directly at the bats will help out greatly; extension cords work great for this.

Change in repelling is Key to Bat Repelling Success! After making these changes, please allow another eight days of repelling.

3) Use the 16th Day as your last checkpoint:

Has the issue diminished? If not, then it's time for us to help. Please Contact Us and we will move to what we like to call our *Stage II* worth of help: **Free of Charge**.

As a company, we are here to help you solve any tough bat issues.

Ways to Contact Us:

- 1) If **Ordered Online**, it's **"BEST"** to **Contact Us** via the **website you ordered from** (e.g., Amazon, Walmart, Sears, etc.).
- 2) Our Business E-mail: info@cleanrth.com
- 3) Local Phone: 1-480-255-5113
Toll Free Phone: 1-855-707-7075
